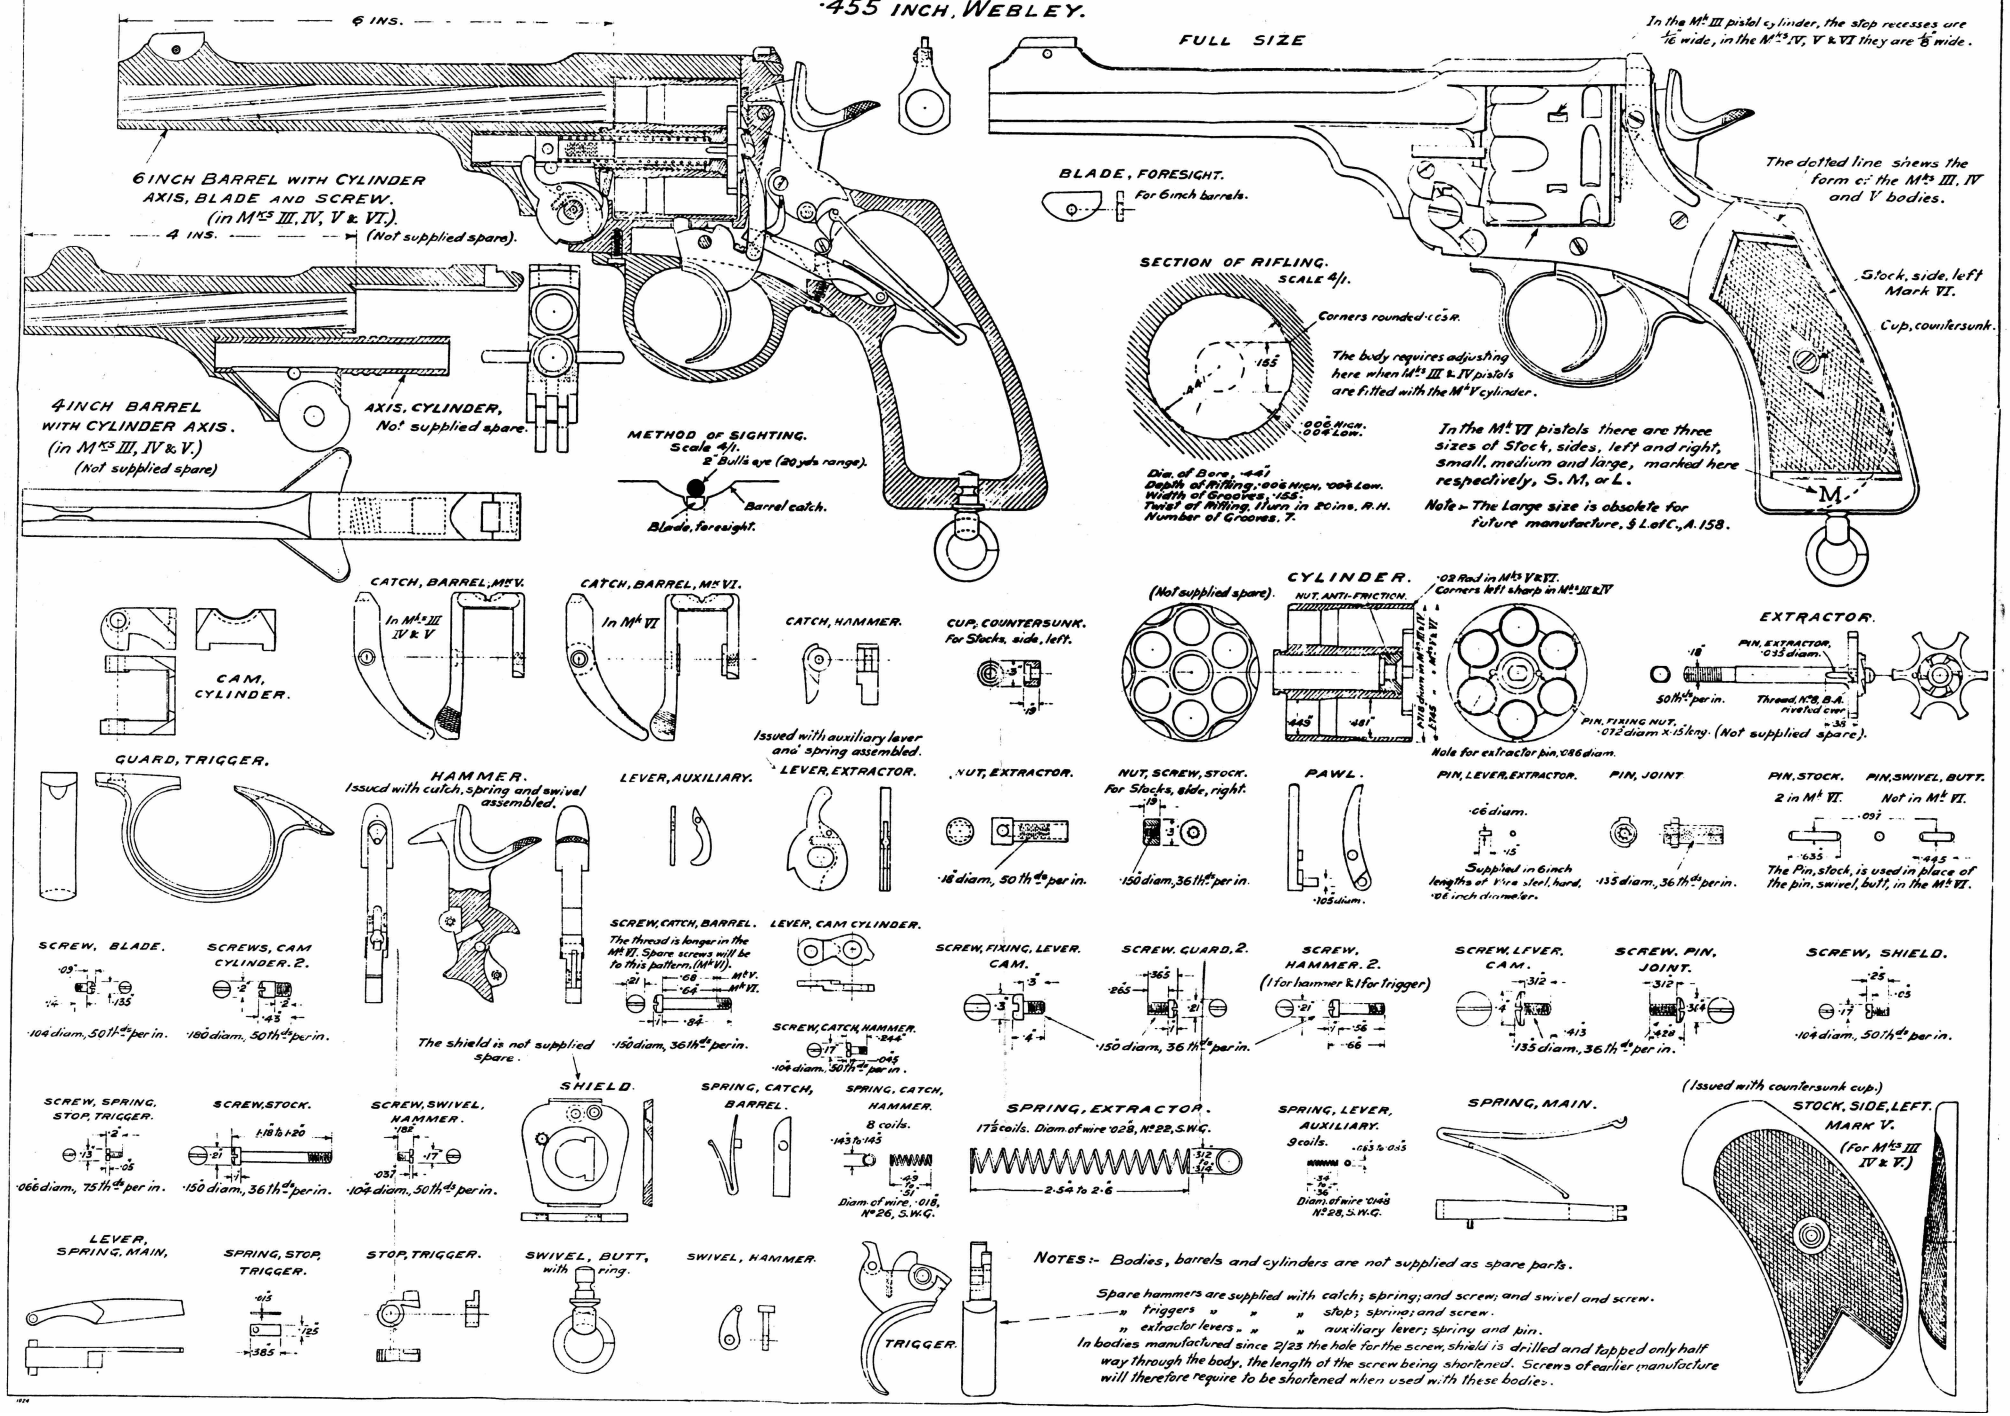
The Marks III, IV and V are obsolete for future manufacture.

PISTOLS. REVOLVER, No. 1, Mks III, IV, V AND VI.

·455 INCH, WEBLEY.

S.A.I.D. 2053



NOTES:- Bodies, barrels and cylinders are not supplied as spare parts.

Spare hammers are supplied with catch; spring; and screw; and swivel and screw.
" triggers " " " stop; spring; and screw.
" extractor levers " " " auxiliary lever; spring and pin.

In bodies manufactured since 2/23 the hole for the screw, shield is drilled and tapped only half way through the body, the length of the screw being shortened. Screws of earlier manufacture will therefore require to be shortened when used with these bodies.
