73A. Unknown P.08 Luger Semi-Auto Pistol. Cal. 9mm. S# 14. Overall condition is very good. Bore is fair. Appears to be a Nazi re-work. The 4" barrel shows obvious polishing over pitting with no numbering. Barrel extension numbered 14 on it's bottom lug. No other markings on that portion. The ejector, etc. are blued rather than straw. Toggle assembly has the rear and mid portion numbered 14. Breech block is unnumbered but marked with what appears to be a Simson proof with a "6" under it. The extractor is unmarked. The firing pin has only a "J" on it and the pin portion has been filed down so that the pistol is in operable. Note, filed down, not broken. The side plate is marked within the rectangular trough on the reverse. The wide trigger and takedown lever are blued with no number. Front of frame and the very good wooden grips are numbered 14. There are no other numbers or

marks on the frame except for the flat surface of the left side has, on 3 lines, "William F. Barnes, Suhl - Germany, 1945". The word "Gesichert" is filled in with white paint. Has stock lug and stainless aluminum bottom magazine with no number. The area where then name is bright polished. All other surfaces are dull finish. Has a very silver appearance that is believed to be stenciled. Has hold open device. Filed firing pin and name significance and are unknown. (07-4384/4-33190 / NW / JC) Curio. Est. \$ 600 - 1000. 75. DWM Model 1914 Military (Artillery) Semi Auto Pistol. Cal. 9mm Luger. S# 6099b. Overall condition is fair to good. Bore is near excellent. Entire receiver assembly and frame are all matching numbers. Non-matching barrel which has been cut back to 7" with a band installed and a new blade which is more like that on a 98 Mauser, not a pistol. Barrel is #2687a and the artillery rear sight assembly is #57. Right side of barrel below sight is marked "Germany" indicating an import. An older mark, likely right after WWII. Chamber is dated 1913. Frame has a unit marking of "143.3.K.17." preceded by a "J.R." that was stamped at a different time as it's depth is different. Grips are very worn but solid and are numbered 99. Magazine is a standard magazine that is nickel plated with some oxidation and cleaned spots visible. Bottom of magazine is numbered "4869a". It has some slight dimension issues and does not fit easily. Pistol shows very little finish remaining and barrel appears refinished. Fine mechanical condition but hold open device does not function. Overall condition is very good. Bores are very good. Has 26 1/4" barrels that are marked "Henry's Patent, Steel" and are foreign proofed. The rib has a two leaf express sight marked 100 and 200 with German silver line guides and German silver front bead. Rib of barrel says "J & W Tolley Makers St. Mary's Square Birmingham". The action is a double lug under lever. The side of the receiver is marked "Charge 5 Drums" which is the amount of black powder used in the cartridge. Note, a typical 12 gauge shotgun shell is 3 1/4 drams. Forend is a splinter type, checkered and retained with a wedge. Butt stock has metal grip cap and butt plate is checkered and much lighter in color than the forend. There is a swivel eye midway between the grip and butt and on the barrel midway between the forend tip and muzzle. Firearm has been reblued. Barrels retain nearly all of this finish. Receiver including locks have an appearance of a cold blue over what was likely case hardening. The action is just a slight bit loose, barely noticeable. Because of this and that the caliber stated was from the consignor, have this checked by a gunsmith before using. (07-4415 / NW / BL) Modern. Est. \$ 1200 - 1800.

Top tang also has a tang sight that also appears old and does not give the appearance of a modern reproduction. Has a plain stock set that is almost mahogany in color, case colored action that is missing both lower tang screws. Crescent butt is covered with a leather recoil pad marked "Action" and Velcro secured. Often referred to as a business rifle. (07-3444 / NW / RK) Modern. Est. \$ 1000 - 1500.

143. Sharps Model Borchardt Model 1878 Falling Block Rifle. Cal. Unknown. S# 18867.

VIEW PHOTO Overall condition is good. Bore is near excellent. 34" tapered round barrel measuring 13/16" at muzzle. Has a globe mounted front sight. 7 1/2" from the muzzle are two D&T holes on the barrel at 7/8" spacing. 3 1/2" from the breech are 2 D&T holes at 1 7/8" spacing. Barrel is nicely blued. Receiver is original antique condition with overall patina finish. There is a Creedmore style elevation adjustable tang sight with graduations from 0-300. It is also micrometer windage adjustable. Forend is checkered with ebony tip, retained with a wedge. Missing wood on each side of the front and shows a crack on the left rear. The butt stock is a pistol grip Schuetzen style that is carved, pre-inletted for some butt plate. Presently has a crudely fitted 3/4" thick red recoil pad material. Obviously a work in progress. (NW / RK1) Antique. Est. \$ 1000 - 1500.

[VIEW PHOTO](#) Overall condition is very good plus. Bore is near excellent. Fine English falling block that was the inspiration for the Ruger #1. Made into a custom varmint rifle of the late 40's, early 50's. Has a 26" heavy rapid taper barrel measuring 3/4" at the muzzle. No barrel sights, has target blocks at 7/2" spacing with a Unertl 10x fine crosshair 18 1/2" scope. 1 1/2" adjustable objective, 7/8" tube, recoil spring, lens caps. Optics are near excellent with one small spec on the crosswire. Remount is the dehorned varmint type. Stock is a highly figured birds eye maple with rosewood tip and grip cap, Pachmayr but pad and a large varmint style rollover cheek piece. (07-3433 / NW / RK) Modern. Est. \$ 1000 - 1500.

[VIEW PHOTO](#) Overall condition is very good. Bore is near excellent. Manufactured 1918. Has a 24" octagon barrel with button magazine, missing front sight. Rear sight has a filed flat top. Barrel retains 95% original blue. Receiver, bolt, forend cap, and buttplate show flaking blue wear mixed with some patina. Finger lever retains most of its blue with just a little bit of patina. There is a Lyman tang sight adjustable for windage and elevation missing the upper portion of the stem for aperture. Forend is good plus with numerous minor handling marks. Butt stock is similar with a couple of the marks being just slightly deeper. A very nice example with a near mint bore. (07-3431 / NW / RK) Curio. Est. \$ 1700 - 2500.

219. Winchester Model 1894 Lever Action Rifle. Cal. 30 - 30.S# 848673.

[VIEW PHOTO](#) Overall condition is good. The bore is near excellent. Manufactured in 1919 just after WW1. Standard saddle ring carbine configuration and it appears the front blade has been replaced. The receiver is marked US and includes the flaming bomb stamp. Very unusual with this marking. The receiver shows almost no finish due to handling. The barrel shows some blue wear in the forward half again likely from handling. Carbine buttplate has almost no finish. Even with this lack of finish there is hardly a hint of oxidation. The stocks are in very good condition for the year. The stock band shows a D & T hole in the bottom likely for some sort of lanyard ring. The buttstock has no modifications. A few minor handling marks on the buttstock and some light marks on the forend. A very rare US ordinance marked Winchester. (08-0003 / NW / VB) Curio. Est. \$ 3000 - 3800.

220. Winchester Model 53 Lever Action Rifle. Cal. 44 - 40. S# 584.

VIEW PHOTO Overall condition is very good to excellent. Bore is near excellent. Manufactured in 1927. Standard configuration. Has Winchester swivel eyes on forend cap and buttstock. There is evidence on the buttstock around the swivel eye of some sanding. Some damage might have occurred when the eye was installed and the sanding was someone's way of correcting it. Otherwise the stocks are very nice with only minor handling marks. The receiver stock shows some thinning blue from cradling. The right side of the receiver shows a trace of cleaned oxidation. There is also a Lyman number 56 receiver sight installed. The rear sight on the barrel has a double pointed slot blank. This rifle is serial numbered in the Model 92 range as many later 53s were. VIEW PHOTO Overall condition is near excellent. The bore is very good. Custom target rifle with a 28" barrel that has a Lyman # 17 Globe front sight. No provision for any rear sight. The heavy tapered barrel is marked W.A.SUKALLE-GUNMAKER-PHOENIX.ARIZ. Has an 8 3/4" rib with a serrated top and Unertl style notches. On the base is a Lyman Jr. target spot with near excellent exterior finish includes lens caps. Very good optics showing only a hint of cleaning needed on the crosswires. The lever has been reshaped to conform to the pistol grip stock. Very nicely blued with markings preserved. The barrel has a slight purple hue likely due to a higher nickel content of the steel. The buttstock has a grip cap and steel checkered model 70's style buttplate. The forend is about 14 1/4" long, well shaped and checkered. It is retained by a European style 7/8" style swivel incorporated into a barrel band. Matching buttstock swivel. The left side of the receiver has some very light fine scratches perpendicular to the bore that look as if the bolt handle of a rifle adjacent to this caused the scratches. Very light and minor. Stock is tiger striped maple with all brass trim, some of which has a silver appearance. Front wedge is missing. The right side of the stock shows that the lock does not fit well. There is some cracking on the rear portion and some wood missing as well. Ramrod is cracked significantly at its mid portion. The lock has an oval with the word "Warranted" at the bottom and the upper portion of the oval has the name "H. Elwell". (NW) Antique. Est. \$ 2500 - 3500.

240B. 1861 Percussion Rifle. Cal. 69. NSN.

[VIEW PHOTO](#) Overall condition is good plus. Bore is fair. All metal surfaces have been cleaned to "in the white". Has a 30" barrel. No bayonet provision. Barrel appears to have been shortened as the forend cap does not fit properly, perhaps a modified Navy model of assembled using parts. Has an Enfield style rear sight but the barrel shows where the 1861 Navy sight was installed. Breech is dated 1864. The tang has number "8414" showing it was mated to a bayonet at one time. Again, likely shortened. Barrel is marked "FCW". Stock is cartouched "JGW". Has ramrod. Top of butt plate shows a repair of some alteration as a copper color is showing. Has a new nipple and excellent mechanical condition. The front barrel band is missing its retaining pin and shows copper on it as well. There is a square on top showing where the sight has been removed or a bayonet attaching block. (01-1404 / NW) Antique. Est. \$ 500 - 1000.

240C. U.S. Model 1861 Percussion Rifle. Cal. 58. NSN.

[VIEW PHOTO](#) Overall condition is fair. Bore is poor. Manufactured by Alfred Jenks & Son. Marked "Bridesburg". Has standard 40" barrel, all standard configuration. [VIEW PHOTO](#) Overall condition is good. Bores are fair to good. 10" octagon barrels marked "fni p. Gouvain a Paris". Each pistol has a walnut stock retained by screws and wedge.

Handles are grooved longitudinally to the handle. The tip of the forend is relief carved. The side lock also retains the maker's name. The metal grip cap, trigger guard assembly, breech plug, tang, side lock and hammer are all engraved. The breech plug and tang of each has a gold inlaid serial numbers, 1 & 2. Pistols come in a walnut presentation case with brass hardware and inlay on the cover. Measures approx. 18" x 10" x 3". Includes 2 compartments, 2 walnut containers - 1 for lead ball and one for caps, a small metal flask, walnut handled screw driver, a walnut ball starter, bullet mold, 2 brass tipped walnut rods and a spiral screw for one to be used as a ball extractor as well as a cleaning jag. The case is dark blue velvet lined and is in very good condition, just missing the lock key. (01-1443 / NW / DW) Antique. Est. \$ 3000 - 4000.

244B. Unknown Maker Flintlock Pistol. Cal. 70. NSN.

[VIEW PHOTO](#) Overall condition is good. Bore is fair. Early flintlock pistol with a 5 ¼" barrel. Has decorative inlays on the rear half of the octagon barrel. The walnut stock has brass trim that is also engraved plus an inlay on the bottom of the trigger guard. The butt area which is brass trim with a silver colored cap shows some damage and some missing brass. It appears to be in good mechanical condition. The sideplate is marked "PITOT". The first letter is not clear (P), and is difficult to read. This includes a ramrod. Missing a flint. (01-1447 / NW / VB13) Antique. Est. \$ 800 - 1200.

244C. Early Bronze Percussion Signal Cannon. Barrel is marked on underside Basset & Co Paris.

Overall condition is very good. Barrel has a nice mellow patina w/ some corrosion on nipple. One wheel appears to be a replacement. One chip in wood frame at end. Also missing one coder pin & chain that holds it. \$2500 - 3500 [VIEW PHOTO.](#)

244D. Muzzle Loading Signal Cannon. Overall condition is very good w/ some oxidation on cast iron barrel. Frame overall is good w/ a crack where the metal is screwed to the frame. \$1200 - 1800. [VIEW PHOTO.](#)

245. Colt Model 1873 Revolver. Cal. 44-40. S# 129882.

[VIEW PHOTO](#) Overall condition is fair to good. Bore is poor to fair. Manufactured in 1889. 4 3/4" barrel, Frontier model and so marked. Has smooth surfaces on all leading edges. Overall patina finish and shows evidence of old cleaned oxidation. Timing is fairly good but the hammer notches need attention. Hard rubber grips are extremely hand worn and have a couple of very small chips on the inner edge of right grip. Approx. 20% of 1873s manufactured in this caliber. (01-1442 / NW / MB) Antique. Est. \$ 1500 - 2200.

246. Colt Model 1873 SAA Revolver. Cal. 44 Special. S# 352711.

[VIEW PHOTO](#) Overall condition is very good. Bore is near excellent. Manufactured 1929. Only 506 produced in this caliber. Barrel marked Russian and S & W Special. Has the 7 ½" barrel. The cylinder is numbered on the face 1306 and also a U. The rear of the cylinder is marked with an 11 which corresponds with the last two digits of the firearm. The frame & hammer show only a hint of case colors remaining. The screws on the grip strap show good blue color. The action screws show faded blue. The ejector rod screw shows good color. All other metal surfaces appear "in the white". Barrel markings are nicely clear and legible. Serial number and frame markings very clear. The base pin fits very snug and appears to be a replacement. The timing of the revolver and the lockup is near perfect. The rampant Colt hard rubber grips are in very good plus condition showing only a couple light scratches. Overall it appears all original except for the base pin and possibly a replacement cylinder. Excellent shooter or ready to be professionally restored. (01-1449 / NW / VB) Antique. Est. \$ 3500 - 4200.

247. Smith & Wesson Model No. 1 Revolver. Cal 22S. S# 1552.

[VIEW PHOTO](#) Overall condition is fair to good. Bore is fair. This is a third type with barrel fastening improvement. Has a 3 ¼" barrel. Nickel plated receiver shows numerous small dings with some flaking evident. Barrel assembly shows an even patina finish. Logo very readable. Mechanics need attention as cylinder doesn't rotate every time. The grips are in very good condition showing original finish. Manufactured 1857 - 60. (01-1448 / NW VB) Antique. Est. \$ 2000 - 3000

248. Colt Model 1895 Revolver. Cal. 38 Long Colt. S# 146114.

[VIEW PHOTO](#) Overall condition is very good. Bore is near excellent. Manufactured in 1900. Good mechanical condition. Hard rubber grips are very good plus. 249. Smith & Wesson 44 Hand Ejector Revolver. Cal. 44 Special. S# 891.

VIEW PHOTO Overall condition is good to very good. Bore is near excellent.

Manufactured in 1908 - 17. Note the extremely low serial number. Has the first type non monogrammed S & W grips. That are numbered to the gun. They are in very good plus condition with only some very minor light scratches on the bottom. It has a 6 ½" barrel. Near excellent timing. This is a first model which is referred to by collectors as a triple lock or new century model. The basic frame shows very good blue with wear and thinning where it was hand held. The last 2 " of the barrel shows holster wear and some flaking blue, especially the left side which also shows a hint of oxidation. The cylinder shows thinning blue with better bluing in the flutes. Hammer and trigger show good case colors. More vivid on the left than the right. Screw heads do not show any signs of abuse. A very nice triple lock with its value is greatly influenced by the low serial number. (08-0006 / NW / VB) Curio. Est. \$ 3000 - 3600.

250. Colt Model 1860 Revolver. Cal. 44. S# 109540.

VIEW PHOTO Overall condition is poor to fair. Bore is poor. Has 8" round barrel, earlier type. All matching numbers, even patina finish. Grips rate good plus. Action needs attention, at least broken or missing hammer spring. Made 1863. Army model as evidenced by the shoulder stock cut in the butt, yet it is a 3 screw frame. No evidence of martial markings. (01-1409 / NW / CC) Antique. Est. \$ 900 - 1400.

250A. Colt Dragoon Third Model Revolver. Cal. 44. S# 12112.

VIEW PHOTO Overall condition is fair. Bore is very good plus. Manufactured 1853. Has 7 ½" barrel. All matching numbers including cylinder. Has New York address. U.S. marked. Brass frame. Action needs attention in that timing is okay but hammer notches need attention. Shows a cleaned (some wire brushing) patina finish. Grips are in very good condition with a partial cartouche visible on the lower right grip. Comes in a fitted walnut case with brass trim. The lock shroud around the key is missing. Includes a brass powder flask by A.M. Flask & Cap Co. with dram markings from 2 to 2 ¾ that appears of the period. The box appears to be of the period with a lid that is very slightly warped. Box includes seven cast bullets and some caps. (01-1456 / NW / EK) Antique. Est. \$ 1,500 - 2,500.

plus. Manufactured 1862. Barrel has New York address. Has a 3 screw frame. Butt cut for shoulder stock. It has a mechanical issue in that it will not cock. The hammer moves back about ¼" and then there is resistance. Cause unknown. A very unusual revolver in that it appears very possibly factory engraved as it has a steel backstrap and a brass triggerguard. Genuine ivory grips showing expected age. Very little cracking for the age. Comes in a fitted walnut case which may possibly be Colt. This case has an ivory inlay around the key opening and even includes the original key. In the case are 10 cast bullets and a brass powder flask that appears to be of the period. Expected tarnishing from its age. Also included is an extra cylinder in good plus condition with 4 loaded chambers. (01-1466 / NW / EK) Antique. Est. \$ 2,500 - 4,000.

250C. Colt Model 1860 Army Revolver. Cal. 44. S# 4311.

VIEW PHOTO Overall condition is fair. Bore is poor to fair. Manufactured 1861. Has New York barrel address. Has 8" barrel. This is the fluted variation with engraving in front of each cylinder notch. Has a steel backstrap and a back trigger guard. Has the 4 screw frame with the stock screws missing. All matching numbers. Mechanics need attention. It appears hand spring needs replacement. Hammer notches are fine. Missing the screw on the barrel by the wedge. Grips are in fair to good condition showing some normal battering at the lower edges. Very small chip missing on each side of the lower front. (01-1462 / NW / EK) Antique. Est. \$ 1,500 - 2,500.

250D. Smith & Wesson New Model No. 3 Frontier Revolver. Cal. 44-40. S# 1472.

VIEW PHOTO Overall condition is very good. Bore is good plus. Manufactured in 1895. Nickel plated with a 6 ½" barrel. There are some minor spots of flaking on the cylinder and near the muzzle. Very faded case colors on the hammer and trigger guard. Some very light, minor scratches on the surface as might be expected for a firearm of this age. The bore shows very strong, sharp rifling with some pitting, especially near the muzzle. All screw heads are near excellent. The cylinder number matches. Examination of the recoil shield and the mechanics show it to be likely unfired. Hard rubber grips are near excellent. It comes with a two page research letter from S&W giving its history. A very fine example of this very limited production revolver. (01-1467 / NW / 4-31765) Antique. Est. \$ 2500 - 3500.

[VIEW PHOTO](#) Overall condition is very good. Bore is fair to good. Has a 9

13/16" barrel with very simple sights, possibly replacements from an earlier Stevens. The barrel may be shortened as it does not correspond to the standard links offered. Mechanics are near excellent, including the fit of the shoulder stock. The part round/part octagon barrel shows some marks along the bottom and top almost as if the barrel was held on its side in a vice. Slight oxidation is more pronounced on the rear section of the barrel. The nickel plated iron frame is in very good condition with a hint of oxidation and flaking nickel on the left side forward and top of the pivot screw. The rear two thirds of the stock shows some pronounced flaking. All screws (except pivot screw) are near excellent. The grips are very good plus showing minor handling marks. Careful examination of the muzzle area leads one to believe it has been cut because it is not perfectly square or crowned as Stevens would have done it. (07-1089 / NW / DP) Curio. Est. \$ 400 - 700.

It has checkered diamond walnut grips and a 2 tone military lanyard loop magazine. It has a short safety with flat housing. Slide retains 85% strong original blue with muzzle edge wear and wear patterns consistent with having been carried in a Mills canvas holster. Frame retains about the same amount of strong bright original blue, slightly thinned on front strap with two spots of rust just above serial number. Safety is also slightly thinned with spring housing a grey metal color. Grips are sound showing moderate wear, heavier on right side with most wear at bottom edges. Magazine is about 75%. Mechanics are fine. (07-3429/4-31100) Curio. Est. \$ 1200 - 1500.

299A. German Police Officer's Sword by Eickhorn. This is a nice example with the typical matte finish to the blade which rates V.G. The reverse of the blade has the 1935-41 vintage Eickhorn Squirrel logo. The original leather buffer is still in place under the crossguard. The scabbard retains a good portion of its black enamel paint and the nickel silver fittings show moderate wear. The black painted wooden handle has the proper police officer's eagle and wire wrap. Very interesting as there is a swastika deeply engraved into the pommel cap. This looks like it was done back then. Topping this fine example off is an original SS officer's bullion knot. Sword shows even wear and is properly tied. Overall this specimen rates very good. (BS / JC) Est. \$ 650 - 800. [VIEW PHOTO](#)

299B. German WWII Naval Officer's Sword. Desirable example with plain blade which is gray in spots and rates overall good. The blade, as well as the hilt, are Navy proofed with the distinctive Naval waffenamt (Eagle with swastika over the M). The hilt is also "fleet" marked O.1270 (for Ostsee). The leather scabbard has nice engraved brass fittings. The brass lionshead hilt has a large anchor on the front of the clamshell and a folding and locking mechanism on the reverse of the langet. This overall very good example has an original and properly tied bullion knot. (BS / JC) Est. \$ 700 - 900. [VIEW PHOTO](#)

299C. Fraternal Sword. This appears to be either a Fantasy piece or some type of an unknown Fraternal sword. It has a very detailed pommel in the form of a skull and a crossguard with the configuration of a long set of cross bones. These are both constructed of brass. This has a polished steel double edge type blade. Intriguing piece in Very Good Condition. (BS / JC) Est. \$ 75 - 150.

300. Rare Gold Government Official's Dagger by Eickhorn.

[VIEW PHOTO](#)

Highly desirable piece with 1935-41 Eickhorn logo on reverse of near excellent blade. The very distinctive gold plating throughout the hilt and scabbard are in overall very good condition. The hilt fittings show normal wear and minor loss of plating. The scabbard has several areas where the plating is discolored. The mother of pearl grips are intact and have no damage whatsoever. The pommel cap nut shows virtually no indication that this dagger has ever been disassembled. We are quite confident that this is a totally matching dagger. Overall very good condition. (BS/C34) Est. \$ 4000 - 5000.

301. Rare Presentation Model 36 NSKK Chain Dagger by Eickhorn. [VIEW PHOTO](#)

Fine transitional piece with near excellent blade having both the Eickhorn logo and the RZM numbers present on the reverse of the blade. The blade is dated 1939 which makes it an excellent example of a transitional dagger. The obverse of the blade has the motto "All for Germany". Overall the blade rates near excellent condition. The plated fittings throughout the dagger including the chain are as close to excellent as you will see. The plating is virtually intact throughout with only a minimal amount of lifting on the upper and lower crossguards. The chain is text book throughout and has no damage or wear whatsoever. This interesting piece is engraved on the obverse of the lower crossguard. The figurative translation is as follows: For twenty-five years faithful service with the 17th staff of Motorsturm 14. The scabbard paint is a solid 90%. The brown wood handle is in near excellent shape and fits very well with no cracks or chips. Overall near excellent. (BS/C39) Est. \$ 3200 - 4000.

302. Model 36 SS Chain Dagger.

[VIEW PHOTO](#) No maker, as is the norm for this type of dagger. The blade is in overall very good condition but has been cleaned and buffed. The motto on the blade "My Honor is Loyal". Has some of the dark burnishing in the background. The nickel fittings on the scabbard and hilt are uncleaned and rate overall very good with a normal amount of use. The scabbard has been repainted. The Type II chain retains the majority of the burnishing and rates overall near excellent. The only liability is that the belt clip is missing the spring and therefore does not function. The handle has the usual dings and chips but rates overall very good. The runick symbol and early nickel eagle are intact and without damage. The piece is complete with a collector added knot. Overall very good condition. (BS/C11) Est. \$ 3200 - 4000.

303. TENO Hewer by Eickhorn.

[VIEW PHOTO](#) The blade rates very good with some finger prints and water spots. It has the correct TENO eagle and Eickhorn logo on the reverse of the blade. The obverse of the blade and the throat of the scabbard have matching numbers (10107). The scabbard paint rates 95% and the matte fittings with a good percent of burnishing where it should be. Rate strong very good with only minimal amount of flaking and lifting. The celluloid handles are slightly discolored but have no cracks or chips. Overall near excellent condition. (BS/C14) Est. \$ 1500 - 2000.

304. Senior Forestry Official's Dagger by Eickhorn.

[VIEW PHOTO](#) This is a handsome deluxe version still retaining the original knot in its proper configuration. The triple engraved blade has the Eickhorn logo on the reverse of the ricasso and also has the distributor's name on the back strap of the blade. The blade grades near excellent with only very minor discoloration. The black leather scabbard has the ornately engraved upper and lower fittings. The hilt which is made of aluminum retains the majority of the gilt on the deeply engraved fittings. This has handsome ivory grip plates which are intact and show nice aging. The obverse and reverse grip plates retain all of the acorns. Overall condition is near excellent. (BS/C5) Est. \$ 1200 - 1500.

305. Model 33 SS Dagger.

[VIEW PHOTO](#) RZM vintage with blade being double marked M7/37 and RZM1031/39 SS on the reverse of the blade. The obverse of the blade has the SS motto "My Honor is Loyalty". Blade overall rates near excellent with the typical in and out runner marks. The fittings on the handle and the scabbard are the very early, heavily plated nickel silver. These show only a minimum amount of wear. The black ebony grip is in near excellent condition with no visible damage. The fit however to the crossguards is not the best. The eagle insignia in the grip is the early nickel style and matches the vintage of the dagger. The SS runic button is intact and rates near excellent. The scabbard is anodized and the lacquer is virtually intact. We suspect this may have been redone at one time. This specimen is complete with the black leather vertical hanger which has the proper markings stamped into leather on the reverse. Overall condition is near excellent. (BS/C12) Est. \$ 1500 - 1800.

306. Subordinate Forestry Dagger by Alcosa.

[VIEW PHOTO](#) This is a handsome deluxe version with the deeply engraved hunting scenes on both sides of the blade. It has the post 1941 Alcosa. The blade rates near excellent and is quite desirable. The aluminum hilt with heavily gilded fittings and acorns is in overall near excellent condition. The stag handles are intact and without damage. The leather scabbard has the ornate lower engraved fitting. Overall near excellent. (BS/C42) Est. \$ 1000 - 1200.

307. Group of 3 German Parts Daggers.

VIEW PHOTO Overall these daggers are original examples which have been altered by the addition of reproduction parts or other components which have modified their appearance.

1. Model 33 SS Dagger. Exterior appearance is that of an RZM vintage dagger. The fittings are plated, the scabbard is painted and the black ebony grip has the aluminum eagle. All of these components are in very good condition and original pre-1945 manufacture. A post-war damascus blade is certainly handsome and has raised gold lettering on the obverse which translates to "The Comrades from Troop III/26/2". The reverse of the blade has the wording "In Loyalty" in raised gold lettering. It also has the maker's initials, "PMD". This piece happens to have a very nice brown short leather strap. (BS/C6)

2. SA Martine Dagger. This appears to be an early SA dagger that someone has modified to give the appearance of the elusive marine version. This has been accomplished by a gold gilding which has been applied over the original nickel silver fittings. The anodizing on the scabbard has also been redone at some point. The SA style blade with the usual motto "All for Germany" is in very good condition but the reverse has been cleaned and buffed and retains no maker's information. The brown wooden handle has no visible damage and the runic button and eagle grip insignia is fine. (BS/C22)

3. Early SA Dagger by Heller. This has been modified by the addition of the Roehm inscription on the reverse of the blade. The back of the upper scabbard fitting is engraved "Horst 18.6.1934". The scabbard has been covered with a brown pebbled leather. This was done some time ago as we have observed some green verdigris. Nickel silver fittings are intact and sound, as is the correct early brown wood grip. Complete with early short leather strap. (BS/C23)

Est. \$ 1000 - 1500 for lot.

308. Labor Corps. Leader's Dagger by Alcoso.

VIEW PHOTO Overall condition of dagger is very sound with the blade showing moderate use and some very light pitting in spots. The motto "Arbeit adelt" (Work ennobles) is clear but retains no burnishing. The nickel silver fittings throughout are near excellent and have taken on a nice patina. This dagger has never been touched or cleaned. Most importantly the white celluloid handles have no cracks and only one tiny chip in the rear. Overall near excellent condition. (BS / C10) Est. \$ 1100 -1400.

309. Early SA Dagger by Eickhorn with Partial Roehm Inscription.

VIEW PHOTO The blade has some water spots and slight discoloration but the motto "All For Germany" is very sharp. The reverse of the blade retains the majority of the Roehm dedication with only a portion of the name being scratched out. The Eickhorn logo is in the proper location. The solid nickel crossguards are near excellent and the lower reverse crossguard is district marked (Ns). The anodizing on the scabbard is very good. Overall very good condition. (BS/C15) Est. \$ 800 - 1000.

310. Second Model Navy Dagger with Ivory Handle.

VIEW PHOTO Intriguing piece with unmarked plain blade. Our inclination is to believe that this is an updated piece originally issued during the Weimar period and then updated with the Third Reich pommel. The blade has some discoloration so will grade at good. The brass scabbard shows moderate wear and has the usual door and train dings but has an interesting personalization on the upper area of the reverse of the scabbard. The owner's name (Lettegast) and the date 18.6.26. are deeply engraved in this area. The real ivory handle has a number of age cracks and has toned in the usual fashion. The appropriately tied knot shows heavy fraying and grades only fair. This example is complete with a nice set of Third Reich vintage fabric hangers with aluminum fittings. Overall set is in very good condition and worthy of consideration. (BS/C13) Est. \$ 800 - 1000.

311. Hard Helmet Deep Sea Diver's Knife by Henckels.

VIEW PHOTO The blade is in fine condition with virtually no damage. It retains the high luster finish and is deeply stamped with the maker's logo (dancing men) and the term "Nicht Rostend" (not rust free) The blade is also stamped "N. 905". This is the unit marking for Nordsee. This unit mark also appears on the upper portion of the scabbard. This is a desirable edged weapon and does not become available to collectors very often. The steel scabbard and hilt retain only 30% of the overall brass finish. The scabbard also has some pitting but is still in sound condition. The knife itself screws into the scabbard and this function is working fine. Overall very good condition. (BS/C1)

Est. \$ 800 - 1000.

312. Red Cross Leader's Dagger.

VIEW PHOTO No maker mark as is the norm. The blade has some water spots but overall is in very good condition. The nickel silver fittings have very light lifting in some spots but overall are very good. The celluloid handle, which has toned from yellow to orange in spots, is in excellent condition with no damage. Overall, very good condition. (BS / C24) Est. \$ 700 - 900.

313. Early Personalized DLV Flyer's Knife by GEBR. HELLER.

[VIEW PHOTO](#) Blade rates very good with minor wear and

discoloration. The leather buffer is still in place under the crossguard. The solid nickel fittings are without damage and have taken on a nice patina. This dagger has never been cleaned. The pebbled leather finish on scabbard and handle show minor scuffing but overall rate near excellent. The reverse of the upper scabbard fitting is deeply engraved with the owner's initials which appear to be "GL". The scabbard throat has both the DLV and the NSFK stamps. The hanger is jury rigged with the correct nickel snap but the leather is missing and has been replaced by a chain configuration. Overall very good. (BS/C26) Est. \$ 700 - 900.

314. Government Official's Dagger by Eickhorn.

[VIEW PHOTO](#) This is in "as found" condition. The blade rates good, only showing considerable wear and some heavy cleaning. The result is that the Eickhorn logo is faded and hard to read. The scabbard is actually an Army scabbard that someone has attached the government official's bands to. It has a few dents and also rates good only. The nickel hilt fittings show very nice detail but the pommel cap tang nut shows obvious signs that this dagger has been apart. The mother of pearl handles are not properly seated and are not a good fit. This example is equipped with a post-war knot and set of dagger hangers and leather belt loop which we also feel are reproductions. Overall condition is good. (BS/C3) Est. \$ 750 - 900.

315. First Model Luftwaffe Dagger by SMF with Collector Added Dedications.

[VIEW PHOTO](#)

[1 VIEW PHOTO 2](#) Blade rates very good with minor nicks along the edge. The SMF logo which is the king on his throne is deeply etched on the blade. The opposite side has a unit designation stamped on the blade but we feel this may be collector added. The leather buffer is still present underneath the crossguard. This is a very early example with high quality nickel silver fittings and chain. The leather on both the handle and the scabbard has been treated at one time and has an unnatural look to it. The reverse of the upper scabbard fitting is engraved with the owner's name, rank and unit but we feel this also may be collector done. (BS/C9) Est. \$ 600 - 750.

316. Second Model RLB Enlisted Man's Dagger by Weyersburg.

[VIEW PHOTO](#) Scarce dagger in average condition with blade rating very good. It does have moderate discoloration and water spotting but the Weyersburg logo is deeply etched into the reverse of the blade. This is an early example with solid nickel silver fittings throughout which show light to moderate wear. The scabbard has been repainted. The wooden handle with the appropriate second style RLB sunburst has lost the majority of the dye in the wood. The plating is also missing off the starburst. This example has the original short strap hanger in sound shape. Overall good condition. (BS/C33) Est. \$ 500 - 650.

317. Lot of 2 German Daggers with Post-War Amplifications.

[VIEW PHOTO](#)

1. Second Model Navy Dagger by Eickhorn. We believe the fittings and scabbard to be original and a pre-1945 manufacture. Unfortunately the heavily ornamented blade with engraved blue panels and raised gold lettering with the Eickhorn logo is a reproduction. The engraving is a presentation from Admiral Doenitz commemorating bravery in the U-boat service. The celluloid grip has been rewrapped and the off orange appearance is unnatural. This piece has what we believe to be a post-war knot. (BS/C37)

2. Army Dagger. No makers mark visible on the blade. This has an engraving on the blade which we believe to be in Dutch, but we also feel very strongly that this is a post-war amplification. The reverse of the crossguard has the Dutch wolf's angle. Otherwise this is a sound example of a mid-war produced German Army officer's dagger. This dagger is complete with a sound set of fabric hangers. (BS/C41)
Est. \$ 550 - 700 for pair.

318. Second Model Luftwaffe Dagger by Eickhorn.

[VIEW PHOTO](#) Complete with hangers and knot. Very early example with appropriate Eickhorn logo on near excellent blade. The hilt fittings are aluminum and show light wear. The steel scabbard has nice detailing and rates near excellent. The orange handle has toned in some places to a yellow color. It comes with a correct short knot and an excellent set of super deluxe hangers with a good percentage of gold on the fittings. Overall condition is near excellent. (BS/C46) Est. \$ 500 - 600.

319. Second Model Navy Dagger by Eickhorn with Engraved Blade.

[VIEW PHOTO](#)

Overall very nice example with engraved blade rating near excellent and having the fouled anchor motif. The 1935 - 41 Eickhorn squirrel is on the reverse of the blade. The brass scabbard has very nice plating and is devoid of any dings or dents. The plated hilt retains the majority of it's finish. The celluloid handle has an age crack that runs through three of the grooves on the handle. Overall very good condition. (BS/C38) Est. \$ 500 - 650.

320. Early DLV Dagger by Josef Munch.

[VIEW PHOTO](#) The blade is near excellent with only slight discoloration and the usual runner marks. The original

leather is still underneath the crossguard and the throat of the scabbard is marked with the DLV logo. The scabbard leather has been replaced. The nickel fittings on the scabbard and hilt are near excellent with no visible damage. The reverse of the upper scabbard fitting has some anchor type engraving which we believe has been added post-war. The hanger has been jury rigged utilizing a short portion of a first model Luftwaffe dagger. Overall very good condition. Please note amplifications. (BS/C31) Est. \$ 500 - 650.

321. Early SA Dagger by Tiger with Added Dedication.

VIEW PHOTO The blade rates very good with minor scratches and the usual in and out runner marks. The "All for Germany" motto is deeply etched in the obverse of the blade and rates near excellent. The reverse of the blade has the desirable Tiger logo. The blade also has an engraved dedication which translates to "For Old Loyalty! Hans Horn 1/23". We are unsure when this dagger was engraved and feel compelled to relate this to you. The anodized scabbard with solid nickel fittings is near excellent. The nickel crossguards are uncleaned and the reverse of the bottom crossguard is district proofed (He). The handle has some nicks up by the SA runic button but is otherwise in sound condition. This example is complete with the short leather strap. (BS/C21) Est. \$ 500 - 650.

322. Second Model RLB Officer's Dagger in "As Found" Condition.

VIEW PHOTO The blade rates near excellent with nice cross graining and only a minimal amount of discoloration. We could not detect any maker's marks. The fittings on the hilt and the scabbard are a fine nickel plate and have taken on a nice patina. The dark blue leather on the scabbard is in very nice condition. The handle is devoid of the leather covering and the grip insignia is also missing. Good restoration project. (BS/C27) Est. \$ 500 - 650.

323. Police Bayonet by Horster.

VIEW PHOTO This is the long version and the unslotted variety. The blade is in near excellent condition, as are the nickel scabbard fittings. Cross guard and pommel show excellent detail. The police eagle is still firmly affixed to the stag handles. The leather scabbard has one crease but is otherwise in sound condition. This example is complete with marked and dated black leather frog and correct police knot. Overall, very good condition. (BS / C3) Est. \$ 400 - 500.

324. Police Bayonet by Clemen & Jung.

VIEW PHOTO Long unslotted version. Blade is near excellent condition with no lifting or bubbling. Nickel silver fitting are excellent and shows fine detailing to the pommel and crossguard. The leather on the scabbard has been treated and remains in sound condition as does the black leather frog with the correct police knot. This is unit marked. (BS/C17) Est. \$ 400 - 500.

325. Red Cross Hewer.

VIEW PHOTO Blade with the serrated edge is in near excellent condition with no damage. Plated fittings on scabbard and hilt retain the matte finish and show little wear. The black leather frog is the correct type associated with this dagger. Scabbard paint is 95% intact. This comes with an incorrect fire police knot. Overall condition is near excellent. (BS/C16) Est. \$ 400 - 500.

326. Early SA Dagger by Klittermann & Moog with Collector Added Dedication.

VIEW PHOTO The blade rates very good with some water spots and slight discoloration. The motto "All For Germany" is deep and retains some burnishing. There is a dedication on the back of the blade which is a presentation to a member of the area administration in Dusseldorf. This is dated the third of February 1939. The engraving is very deep and well done but we feel that this has been added post-war. The solid nickel silver fittings on the scabbard and hilt are uncleaned and rate very good. The anodizing is present but very thin. This is complete with the correct early short leather hanger. The handle is a very good fit and has no cracks or chips. Overall very good condition. (BS/C20) Est. \$ 400 - 500.

327. RZM Vintage NSKK Dagger.

VIEW PHOTO The blade is marked "M 7/11" and dated 1939. The blade is near excellent with nice factory cross graining and deep motto. The plated fittings on the scabbard and hilt are near excellent with no lifting. The handle shows virtually no damage but has some discolorations. This is complete with the appropriate short leather hanger. (BS/C25) Est. \$ 400 - 500.

328. Hard Helmet Deep Sea Diver's Knife by WKC.

VIEW PHOTO The blade on this example is in near excellent condition with only minor thumbprints. The WKC knight's head logo is deeply engraved on the ricasso. The reverse of the ricasso has the name of the distributor. This is "AUG. LUNEBURG KIEL". The scabbard and the hilt on this example are made of brass and virtually all of the finish is intact. The knife itself is weighted towards the top and you can actually see the lead inserts. The knife screws into the scabbard and this still functions properly. The top of the knife is deeply engraved with an anchor motif surrounded by oak leaves. We are not sure when this was done. Overall condition near excellent. (BS/C2)

Est. \$ 400 - 500.

329. Early SA Dagger by E. Packe & Son.

VIEW PHOTO The obverse of the blade has some scratches but the motto "All for Germany" is very clear and deep. This is a fully ground Roehm where the owner took no chances whatsoever and totally ground the blade from the tip to the last letter of Roehm's name. This gives the blade a very dramatic appearance. The solid nickel fittings on the scabbard and the crossguards are in very good condition with little visible damage. The handle has some discoloration and a few scratches. The reverse of the lower crossguard is unit marked. This has a later vintage short leather strap hanger. Overall condition is very good. (BS/C21-2) Est. \$ 400 - 500.

330. Miniature Second Model Luftwaffe Dagger by SMF.

VIEW PHOTO The blade has the SMF logo and D.R.G.M. deeply engraved in the reverse and the obverse has the name of a newspaper in Hanover. The aluminum hilt fittings are very good and handle is intact with no damage. Scabbard has nice detailing and slight wear. Overall length of the dagger is 9 ½". Overall very good condition. (BS/C30) Est. \$ 350 - 450.

331. Labor Corps Hewer by Alcoso Complete with Leather Hanger.

VIEW PHOTO The blade rates very good with the motto "Arbeit adelt" (Work ennobles) nicely etched into the obverse of the blade. Blade has some water spots and discoloration. Overall the entire dagger is loose and shakes when you move it. Stag handles are intact and very good. The nickel fittings show light to moderate wear. The scabbard has been repainted. The correct hanger has the nickel fittings with brown leather flap. Overall good condition. (BS/C4) Est. \$ 350 - 450.

332. Hitler Youth Knife with Motto by Eickhorn.

VIEW PHOTO Blade rates very good with fairly deep "Blut und Ehre!" (Blood and Honor!) motto. The reverse of the blade has both the appropriate RZM markings and the Eickhorn logo. This is a very nice example of a transitional piece and it is actually dated 38 on the ricasso. The scabbard has been repainted but the brown leather strap and retaining belt are still sound. The plated hilt fittings show light wear and some flaking. The handles and the H.J. diamond are in near excellent condition. Overall very good condition. (BS/C18) Est. \$ 300 - 400.

333. Army Dagger by Emil Voos.

VIEW PHOTO Blade rates very good with minor lifting and bubbling and some discolorations. The desirable Voos logo is deeply engraved on the reverse of the blade. Scabbard rates near excellent with only minor wear and discoloration. Deep colored pumpkin orange handle is very good with no damage. Reverse of the crossguard has "collector added" engraving which reads "RFSS". This example is complete with an original properly tied knot. (BS/C47) Est. \$ 300 - 400.

334. Japanese Naval Dagger.

VIEW PHOTO Handsome piece with blade rating near excellent showing no damage. The handle has the original shark skin which is intact and has the chrysanthemum flower on the front and back of the grip. The brown leather scabbard has ornate fittings with deeply engraved chrysanthemums. Overall near excellent. (BS/C44) Est. \$ 300 - 400.

335. Italian Fascist High Leader's Dagger.

VIEW PHOTO Plated blade is in excellent condition. Black painted scabbard retains 90% of the original paint. The aluminum hilt with eagle configuration has a matte finish and shows light wear. The black celluloid grip plates are intact and the fascist bundle is present on the obverse grip plate. The detachable chain is missing. Overall very good condition. (BS/C28) Est. \$ 350 - 450.

336. Early SA Dagger by Haenel.

VIEW PHOTO The obverse of the blade with the motto "All for Germany" has some surface scratches but is otherwise in near excellent condition. The reverse of the blade has been cleaned and buffed and has been engraved "True and True" in German. We believe this is collector done. The logo for the firm of Haenel is deeply engraved on the reverse of the blade. This is a very interesting company as their slogan indicates because they were weapons and bicycle manufacturers. The early nickel fittings are in near excellent condition with very little wear and minimal damage to the bottom of the boot. The handle is as fine as they come with perfect fit and no visible damage. The upper and lower crossguards have been engraved with a dedication to an officer by the name of Richard Kuhn. This is dated 1934. Unfortunately, we also believe this has been collector done. The anodizing and lacquer on the scabbard are in near perfect condition. This example is complete with a proper early short strap hanger. The overall condition is very good with the described liabilities. (BS/C36) Est. \$ 400 - 500.

337. Lot of 2 Post-War German Forestry Daggers.

[VIEW PHOTO](#)

1. **Subordinate Forestry Dagger by Eickhorn.** Good filler piece with triple engraved blade featuring hunting scenes. The brass hilt is heavily engraved and has the stag grips with acorns. The green "leather" scabbard has plain fittings. (BS/C7)
2. **Subordinate Forestry Cutlass by FW Holler.** Double engraved blade with hunting motif. Fancy brass hilt with heavily ornamented configuration including the Third Reich style eagle in the ferrule. This has bulbous oversized stag grips. The brown leather scabbard is a plain configuration. (BS/C8) Est. \$ 350 - 500 for two.

338. Lot of 4 Miscellaneous Daggers and Fighting Knives.

[VIEW PHOTO](#)

[1 VIEW PHOTO 2](#)

1. **WWII or Earlier Vintage Girka Ceremonial Knife** with a sharp curved blade indicative of this style knife. Complete with 2 small skinning knives still nestled in the back of the black leather scabbard. The composition handle has earlier nickel silver fittings with a lion on the pommel cap. Overall very good condition. (BS/C19)
2. **WWII vintage US fighting knife made by Kinfolks.** The bowie style blade has been sharpened and shows light to moderate use. The solid black plastic handle is held in place by three rivets. The crossguard is made of brass. Overall sound condition. (BS/C29)
3. **Slovak Ceremonial Dress Dagger.** We were unable to identify the specific country where this was manufactured but we believe it is from one of the Slovak nations. The double edged blade has a very small hardly visible maker's mark. Blade shows moderate use, some sharpening and discoloration. The heavy brass fittings on the hilt and scabbard are engraved with oak leaves and other designs. These show average wear. The scabbard is covered in a brown felt material. Complete with a well worn gold bullion knot. Overall good condition. (BS/C35)
4. **Chinese Ceremonial Dagger.** The overall length is 11 ¾". The blade shows heavy use and is unmarked. The steel scabbard has brass fittings that have the chrysanthemum motif. The brass hilt is very fancy with the back strap being a peacock with fancy glass eyes. The plastic handle has an off orange look to it. Overall in good condition. (BS/C40)
Est. \$ 350 - 475 for lot.

339. German Hunting Knife with Stag Handles.

[VIEW PHOTO](#) Has a double edged blade which has been buffed and cleaned. It has brass fittings on the brown leather covered scabbard. These are rather crudely applied and ill fitting. A German eagle has been applied to the upper scabbard fitting but we believe this may have been done by a collector. The brass crossguard has the name of an American officer by the name of "Major Weller" followed by "A.O.K.6". Overall condition is good. (BS/C45)
Est. \$ 175 - 250.

340. Dress Bayonet by FW Holler.

[VIEW PHOTO](#) This is a short model and the blade is in very nice condition with minor scratches on the plated surface. The scabbard paint is 90% intact. This is a private purchase knife with the optional stag handles. These show moderate wear. There is an SA runic button in the center of the grip but we believe this has been collector added. This example is complete with a nicely marked and dated (1935) brown leather frog. (BS/C43) Est. \$ 100 - 150.

340B Historical Presentation Sword. Model 1860 Staff & Field Officer's Sword by Shannon,

[VIEW PHOTO](#)

Miller, & Crane, New York. Presented to **William Cary Sanger** who was a West Point Graduate and served during the Indian Wars and ultimately attained the rank of Lt. Colonel. He commanded the 203rd New York Regiment in the Spanish American war and then appointed as assistant **Secretary of War** in 1901 by friend and comrade of the Spanish American war **PRESIDENT THEODORE ROOSEVELT**. This sword is from the late 1870's or early 1880's, most likely from the time when he was promoted to Major. Overall condition is good. Blade is shiny w/ some blemishes & oxidation on bottom 3rd. Scabbard has even wear the entire length. This Sword consigned by a direct descendent of William Cary Sanger. Comes with a large lot photocopied literature on Lt. Colonel Sanger. Including some promotion paper from National Archives. Discharge papers, etc. Est. \$1500 - 2500

341. German Paratrooper Knife by Weyersburg.

[VIEW PHOTO](#) This is the non-takedown version. The blade is in near excellent shape with no sharpening. The spring mechanism is reasonably tight and still functions properly. The marlin spike has the waffenamt. The wood grips are in sound condition with the typical discolorations, scratches and normal use. Overall very good condition. (BS/C100) Est. \$ 350 - 450.

341A. Imperial French Light Cavalry Saber by Weyersberg & Co..

[VIEW PHOTO](#) This has a very nice double engraved blade with a military motif. Based on the age of the sword, the condition of the blade is quite nice. The scabbard has been repainted at some time. The iron hilt with a "D" guard is in sound condition with light pitting. This has the black wood grip with checkered ribbing. The overall

condition based on it's age is very good. (BS / PP85) Est. \$ 350 – 450.

341B. German WWII Belt and Buckle Lot.

VIEW PHOTO

1. **SA Belt and Buckle.** This is a solid brass SA buckle with the rotated swastika. The appropriate brown, service quality belt is unit marked and also dated '38. This set shows light wear to the belt but almost no wear to the buckle.
2. **Political Leader's Belt and Buckle Set.** The buckle with the political motif is aluminum with a gold wash. It's RZM marked (M4/24) on the reverse. The correct brown leather belt is marked and dated 1939 and has the keeper with oak leaf design. Very interesting as this has the owner's name and address in Bavaria. This set shows light to moderate wear.
3. **Luftwaffe Enlisted Man's Buckle.** This is a steel example and is missing all of its paint. The buckle does have a marked and 1941 dated leather tab. Good condition. (BS / JC) Est. \$ \$ 250 - 350.

342. Political Leader's Gorget.

VIEW PHOTO The plate is in excellent condition with good detailing to the burnishing and virtually no damage.

The green felt backing plate is intact with a few tears. The complete 31 link chain is matched to the backing plate as it has the same numbers "M1/128". Overall near excellent conditions. (BS/C101) Est. \$ 600 - 750.

343. Very Rare Luftwaffe Honor Goblet.

VIEW PHOTO 1

VIEW PHOTO 2 This very desirable item is the first type. It is made of 835 silver and is marked on the bottom "Joh. Wagner & Sohn", under that it marked with the silversmith's hallmarks and the 835 silver content. This was awarded to "Sgt. Albert Schindler" on January 13, 1942. These prestigious goblets were awarded for "outstanding achievement in the air war". This example has never been cleaned and shows a very honest patina on both the exterior and the interior of the goblet. There are no visible dings or dents. (BS/C103) Est. \$ 3500 - 4500.

344. Rare NSFK Statue.

VIEW PHOTO This handsome piece of artwork stands 14" high and is a depiction of Icarus, the god of flight. This was also the symbol that was adapted by the National Socialist Flying Corps (NSFK). This is made of a base metal with a dark bronze antique finish. It stands on a 2 tiered base. The bottom tier, made of marble, is approx. 1 1/8" high x 3 7/8" wide x 3 7/8" deep. The upper tier is made of the same material as the statue and is approx. 3/8" high x 3" square. A gold NSFK insignia is attached at the base of the feet. The bottom of the marble has a dark blue felt covering. The statue itself is loose from the base. Overall condition is near excellent with no visible damage. (BS/C104)
Est. \$ 750 - 1000.

345. Eagle Desk Ornament.

VIEW PHOTO Handsome Nuremberg eagle which is approximately 4 1/2" high, made of a bronze material and has excellent obverse and reverse detailing. This sits on a marble base approx. 1" high and 4" wide. Marble has one chip out of the rear. The eagle has taken on a nice antique verdigris look. Overall condition is very good. (BS/C102) Est. \$ 175 - 250.

346. Lot of 3 German Plaques and Busts.

VIEW PHOTO 1

VIEW PHOTO 2

1. **Adolf Hitler Bust.** Small example standing 6 1/2" high including a 1 7/8" marble base. This is a cast made of a base metal with nickel silver plating. The rear of the neck is marked "TH. LINZ". The bust has reasonable good detailing and overall the piece rates near excellent with no visible damage. (BS/C105)
2. **German Soldier Bronze Bust.** Stands 5 3/4" high including an 1 1/4" marble base. This is the typical depiction of the bare chested German soldier with WWI helmet. It is made of a base metal with a bronze finish. Overall condition is near excellent. (BS/C106)
3. **Small Hitler Wall Plaque.** Measures approx. 5 1/2" high x 3 3/4" wide. This has the Hitler profile along with a quote from one of his speeches. This is maker marked on the back and has a hook for wall mounting. (BS/C107) Est. \$ 350 - 450 for three.

347. Lot of 3 German Silver Plated Items.

VIEW PHOTO

1. **Drinking Tankard** with handle which stands 4 3/4" high by approx. 2 7/8" wide. This is made by Wellner and is so marked on the bottom along with "30cl" and the number 11 which is incised into the metal. This is a high quality silver plating that has never been cleaned. It is marked with the German national eagle. Overall near excellent condition. (BS/C108)
2. **Larger Version of the Previously Described Tankard.** Stands nearly 5 3/4" high and approx. 3 1/4" across. This is marked on the bottom "Wellner 50cl." And the number 14 is deeply incised into the metal on the bottom. Near excellent condition with no visible damage. (BS/C109)

3. Large Serving Spoon. Measures approx 10" long and made by the firm of Bruckmann. This is made of a base metal with a good quality plating. It has a very stylized German eagle which is raised off of the surface at the base of the spoon. Nice patina, never been cleaned. (BS/C110)
Est. \$ 225 - 300 for lot.

348. Lot of Reproduction or Altered German Silver Plated Items. [VIEW PHOTO](#)

- 1. Reproduction Cigar Box.** Made of silver plate over a thin steel material. The top is hand hammered and has a Totenkopf attached. The engraving on the top says it was given to the 4th SS Totenkopf Standardte. The interior is set up with a cedar wood and was meant for cigars. (BS/C115)
- 2. Gravy Ladle.** The ladle itself is original but someone has stamped "Waffen-SS" into the handle. (BS/C116)
- 3. Reproduction Luftwaffe Presentation Silver Goblet.** This is stamped "835S" on the bottom. It has the Luftwaffe eagle and a presentation to an officer engraved on the side, but we consider this to be post-war done. (BS/C117)
- 4. Reproduction SS Silver Drinking Glass.** This has a Totenkopf skull and a shield attached to the side along with some engraving. We believe this to be post-war done. (BS/C118)
- 5. Lot of 5 Silver Shot Glasses.** All are engraved with various dates and officer's names. All of them appear to be marked on the bottom either 800 or 835. We believe that these engravings were done after 1945. (BS/C119)
Est. \$ 350 - 450 for lot.

349. Lot of Reproduction German Gorgets, Plaques and a Cigarette Case.

[VIEW PHOTO 1](#)

[VIEW PHOTO 2](#)

- 1. SS Standard Bearer's Gorget.** Reasonable representation albeit a reproduction of the highly desirable SS gorget for flag bearers. The nickel plated obverse has a patina that gives it some age look. The back is covered in black felt and all of the bosses are intact. The chain with alternating skulls and SS runes is in sound condition. (BS/C111)
- 2. First Model SA/SS Gorget.** This is a reproduction of one of the more popular gorgets. It is heavier than an original and the chain configuration is heavier than originals we have encountered. The starburst on the obverse has the SS rondel. Maker marked on the reverse along with a dark blue felt covering. (BS/C112)
- 3. Reproduction Cigarette Case.** The case itself may be vintage as it certainly looks like others from that time period. It is made of a pebbled nickel server over a brass base. Someone has applied a reproduction bronze infantry assault badge to the front. (BS/C113)
- 4. Panzer Wall Plaque.** We believe the plaque itself, made of wood with a plated metal attachment on the front to be original. This is a depiction of an early Panzer tank on an incline. The presentation plaque attached to the bottom indicating it was awarded to a Panzer unit is, we believe, collector applied. (BS/C114)
Est. \$ 250 - 350 for lot.

350. Lot of 5 Reproduction German Badges and Medals.

[VIEW PHOTO](#)

- 1. Combined Pilot Observer's Badge.** This badge has a presentation and date on the reverse.
- 2. Luftwaffe Pilot's Badge** with excellent detail and is maker marked but unfortunately is a reproduction.
- 3. 5 Metal Bar.** This has not only the SS long service award for 18 years and also 2 NSDAP long service awards, along with annexation awards. This also shows good detail but is still a reproduction and must be sold as such.
- 4. Naval High Seas Fleet Badge.** This is maker marked and has nice detail but it too falls short of being original.
- 5. Iron Cross 1st Class.** The case is original and has a vaulted top. The badge itself has a dedication on the back with numerous maker's marks, etc. but is a known reproduction. (BS/C120) Est. \$ 300 - 375 for lot.

351. Large Lot of 28 German Reproduction Rings.

[VIEW PHOTO](#) These represent a number of organizations including the Luftwaffe, the Army, the SS, the police, and some have a political motif. Although many have great detail, enamel work, and some even show a degree of wear, a close examination by us leads us to believe that these are all of post-war manufacture. Some have maker's marks and a few have stamps indicating a silver content. These are being sold as one lot. (BS/C121) Est. \$ 450 - 550.

352. NSKK Desk Ornament.

[VIEW PHOTO](#) Very unusual configuration including what appears to be a BMW motorcycle mounted on a marble base. The dimensions are: 5 ½" high x 9 ¼" long x 3 12" deep. The motorcycle which is made of a base metal with a deep bronze finish shows very nice detail. Separately mounted to the front of the plaque is a silver plated 2nd style NSKK eagle. This would be similar to a finial found on a car pennant. The black marble base with white streaks stands almost 1" high. The bottom is covered in a somewhat discolored blue felt material. First one of

these we've even encountered. (BS/C122)
Est. \$ 250 - 350.

353. Reproduction Lot of 5 Miscellaneous Items.

VIEW PHOTO

- 1. Stainless Steel Ashtray Made by WMF.** The ashtray may be vintage but the engraving is post-war.
- 2. Reproduction SS Dog Tag.**
- 3. Reproduction SS Skull.**
- 4. Reproduction SS Identification Disk.**
- 5. Reproduction German Stickpin.**

(BS/C123) Est. \$ 75 - 100.

354. Lot of 2 Bronze WWII U.S. Appreciation Awards.

VIEW PHOTO 1

VIEW PHOTO 2 Presented by the Curtis Wright Airplane Division located in Buffalo, N.Y. and were given for outstanding production. Near excellent condition. (BS/C124) Est. \$ 50 - 75.

355. Lot of 2 Watches and 1 Fob.

VIEW PHOTO

- 1. Italian pocket watch made by Doxa** and has a porcelain face. It has what we believe is a post WWII engraving on the back of the case. This is a depiction from the Afrikacorps. It happens to be complete with a WWI vintage fob that has an Iron Cross ribbon and an actual Iron Cross configuration at the end.
- 2. Very small pocket watch with a porcelain face.** This has a nicely detailed fob with the tri-color of Germany along with a Swastika, oak leaf, and acorn motif.
- 3. Third Reich vintage watch fob** in miniature. This has a Swastika within a wreath along with a tri-color ribbon.

(BS/C125) Est. \$ 150 - 250 for lot.

356. Walther Model PPK Semi Auto Pistol. Cal. 32. S# 931877.

VIEW PHOTO Overall condition is very good as restored. Bore is slightly frosty. Pistol approx. 98% of a restored finish w/ a crown "N" proof. 421. Ruger No. 1-S Falling Block Rifle. Cal. 270 Win. S# 131-25815.

VIEW PHOTO Overall condition is very good to excellent. Bore is near excellent. Has 22" barrel with sights, Alex Henry Forend, and is an older model with red pad but with warning marks on barrel (post 1977). Would grade overall excellent except for some slight pinprick oxidation on the lower sides of the receiver, especially on the right and a small portion of the finger lever. (07-4395 / NW / KF) Modern. Est. \$ 400 - 550.

422. Remington Model 121 Pump Action Rifle. Cal. 22 RF. S# 116865.

VIEW PHOTO Overall condition is very good. Bore is near excellent. Date codes December 1948. Minor handling marks on the top rear of the receiver and some handling blemishes on the butt stock. No dents or gouges. A small half dime shaped chip missing on the top left portion of the butt. (07-4397 / NW / KF) Curio. Est. \$ 250 - 400.

423. Remington Model 12C Pump Action Rifle. Cal. 22 RF. S# 720679.

VIEW PHOTO Overall condition is very good plus. Bore is very good to excellent. Date codes September 1927. Metal surfaces show even light wear. The stocks appear refinished with both being very light in color. Butt stock is a pistol grip the same as a Model 121 but it has a Model 12 crescent butt plate, likely a replacement. Creates a very nice unique Model 12. (07-4406 / NW / KF) Curio. Est. \$ 350 - 550.

424. Marlin Model 39A Lever Action Rifle. Cal. 22 RF. S# J7608.

VIEW PHOTO Overall condition is very good to excellent. Bore is near excellent. Manufactured in 1952, it has a 24" round barrel. Has some very minor stock marks and some very insignificant marks on the bluing on the barrel and the bottom of the finger lever. This is a 3rd model 2nd variation with flutes in the butt stock comb, a white line butt plate spacer but without pistol grip cap, and Ballard rifling. (07-4390 / NW / KF) Curio. Est. \$ 275 - 400.

425. Remington Model 12A Pump Action Rifle. Cal. 22 RF. S# 311219.

VIEW PHOTO Overall condition is very good to excellent. Bore is good. 22" round barrel, made 1909-36. (07-4405 / NW / KF) Curio. Est. \$ 350 - 500.

426. Remington Model 521-T Bolt Action Rifle. Cal. 22 RF. NSN.

VIEW PHOTO Overall condition is fair to good. Bore is near excellent. Date codes July 1947. 500 series junior target rifle, Lyman 17 front sight and 57RS rear sight. Stock shows repaired butt cracks, improper replacement butt plate, refinish, has original Remington 10 round magazine. Metal surfaces except for the bolt, have been refinished over scattered oxidation and has oxidized again, especially the barrel. Ungrooved receiver. Metal has a purple hue from the rebluing. (07-4398 / NW / KF) Curio. Est. \$ 100 - 200.

427. Winchester Model 52 Bolt Action Rifle. Cal. 22 LR. S# 54636b.

VIEW PHOTO Overall condition is poor. Bore is near excellent. Manufactured 1946. Has a front dovetailed sight block and a heavy block in the rear receiver dovetail marked "Win 52 MS". Standard target stock with heavily oxidized lead wool filled holes in the butt stock. No butt plate present. The stock is dirty with numerous light handling marks. The forend rail has a hand stop, swivels, all electroless nickel, missing one mounting screw. All metal surfaces except bolt body are covered in oxidation. Winchester marked loading platform of the later stamped variety. Safety mechanism is missing on the right side of the receiver. This is the heavy barrel model, not the butt gun model. Has Unertl style scope blocks on the barrel. Has a special trigger in that there is a wire with a loop present in front of the trigger in the trigger guard. With a simple bead blast refinish, one should have a highly

accurate but inexpensive Model 52. (07-4399 / NW / KF) Curio. Est. \$ 200 - 400.

427A. Ruger 10/22 Semi-Auto Rifle. Cal. 22 LR. S# 115-57594.
