Welcome to our first news letter for the year

## MUD GUTS 'N' GLORY ROCKS 09

Well we are still running this comp and plan on it being bigger and better, as most of you know we have a new place to run this comp this year, it will not be all about mud, we have rocks and tyres coming in this year so there should be a wide variety. There will be a mud run/drag on Saturday night under lights.

So to give you all time to get ready for the mud run this year we will be starting at 8.30 till 4.30.

If you break down this year you have all day to do repairs as there will be no time limit on repairs just as long as you get all your stages done by 4.30 you will be fine.

This year we are running the stages different, they will be run on a time limit with no penalties for reversing, we thought this would give you more of a chance and keep the crowd happy.

We are also only running 8 or so stages this year so half of you will run stage 1 to 4 on Saturday and other half will run 4 to 8 and then on Sunday you will swap, so there will be no reversing of the track this year.

We are also thinking of running a show and shine on the Saturday morning for the crowd to vote for the best looking car for 2009.

Rules and entry forms will be ready by the end of May, we are asking every one that enters to provide a photo of their car and we will post it up on website so people can have a look who is going to be there this year.

Scrutineering this year will be scored and there will only be one scrutineering day again this year, we hope doing this will get people ready for the comp and not leave it till day of the comp, as this has happened in the past.

We will be holding a driver meeting before the comp for people to ask any thing they want to about the rules.

There will also be a section on the adrenalin forum for you all to ask questions and get answer.

Camping this year we are allowing people to camp with there cars but we will have a limit on people that can camp in this area the maximum number of pit crew you can have is 8 per team you will have a area of 100 square meters per team, if you have more people or don't think you will fit in this area you will have to leave you car in the pits and camp in the family area.

We are having spectors camping on the grounds this year but there are a few guide lines that the council has put into place this year.

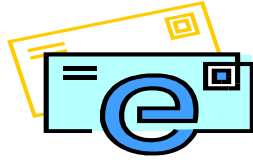

Friday night will be a alcohol free night and there will be no BYO this year, we are Planning on having a bar which will be run by the local pub and all money will go back into the town, there will be a max of 6 drinks per person and they we be sold to you as a voucher at the gate before you enter.

The cost of camping for people is \$14 per couple per night and \$5 each for extra people per night. Camping will be available till Monday. The driver and nav will not have to pay.

There will be food vans there again this year and we should have more ideas soon of what they will be selling but there will be plenty of food.

Entry fee for anyone other then driver and navigator will be \$25 for a weekend pass or \$15 per day...kids under 13 are free....

For any further enquiries  
Or post up on the new [Adrenalin forum](#)

Regards  
Team Adrenalin
