

The American Dream

Let me see, is the American Dream to be buried in debt and sold to China from birth to the grave? Is it the American Dream for the working man to have to pay the way for illegal immigrants and their families, while they work illegally and send their money back to Mexico? Is it the American Dream to outsource to other countries every manufacturing job available so that the only jobs available in this country are fast food and custodial in nature? I could go on and on about the American Dream! Many veterans trying to return to the workforce have to compete with those illegals for jobs, and most of those illegals are soaking up social services like medical care and housing, while we working stiffs pay taxes to pay their way. American Dream? I see welfare families birthing babies, 4 and 5 deep, so they can get more of the "American Dream." Someone has to put an end to the social sop that is draining the life out of this country.
