# Numbers, Symbols and Words

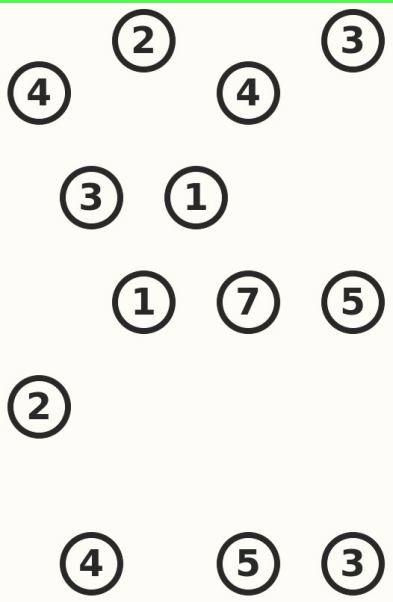

## Your Daily Warmup Puzzles

In bridge we manipulate puzzles involving numbers, symbols and words and strive for logical solutions (or at least inspired guesses). In each issue this week we will feature a pair of number/symbol puzzles, an easy one here on page two, and a harder one on the inside back cover; and, a word puzzle at the bottom of this page. In all of these puzzles, you will be able to solve them without guesswork, by logical deductions alone, which is what we're all trying to do at the table.

Today's puzzle is called **Bridges**. We start with islands that have numbers in them. Your objective is to connect these islands with bridges, such that:

- all bridges are straight lines that go left-right or up-down. No diagonals, turns, or slants.
- the number of bridges terminating at any island is equal to the number written in that island
- islands can be connected with one bridge or with two parallel bridges, but no more than two
- it must be possible to get from any island to any other via the network of bridges
- no bridges may cross one another or go over an island

The easy version is below. Hints, and a more difficult puzzle will appear on page 19. Answers will appear in tomorrow's Daily Bulletin.

Word puzzles this week are from an app called **Unolingo**. It is a crossword without clues! There are exactly 26 blanks to fill in, and each letter of the alphabet fills one of the blanks. The puzzles are designed so that

only common English words are used, no centuries-old arcane words that are found in crosswords. You'll do best by looking for the locations of the hard letters first: QU, X, J. Be sure to mark off the letters used in the checking area beside the grid to keep track of your progress. It's not as difficult as it seems! I did most of these in 3-6 minutes.

A list of words in the puzzle (in alphabetical order) is on page 13. If you need a more limited hint, ask someone to examine the word list and tell you if the list contains, for example, a six-letter word starting with D and ending in E.

# Notes & Notables

## Not quite a thousand words

A late summer week in a north Seattle suburb; a nice and popular location with free and easy parking, enough nearby restaurants to fill a round table at the United Nations, and lots of shopping opportunities; the fun and challenge of playing against the best in District 19's largest city, and visitors from many other locations. What could be better?

We start today with some trivia for you, from another game we all know. Recently, an Internet chat board found the time to work out the shortest possible two-player game of Monopoly, using the standard rules (no extra rules that "everybody" plays, just the official rules) and measured by the number of dice rolls, not including the rolls to determine who goes first. It was quickly determined that two turns each and a total of seven dice rolls are needed. Can you see how? (Ground rules: it is not permitted to have a player make an insane bid if a property comes up for auction after the player who landed on it declines to purchase it. it is however, permitted and suggested to have players draw the very best or worst possible cards from Chance or Community Chest...) Answer on page 18.

More answers, to frequently asked questions I have been getting at the preduplication area:

*Where are the Bulletins?* They arrive mid-morning and I try to distribute most of the copies at various spots: near the Partnership Desk seems to be where extras end up, but you'll also find them near where hand records are displayed, near the team buying table, and near the coffee area in the playing area. You can also view them online at [d19.org](http://d19.org), hours before they arrive.

*Where are entries sold?* For pairs, the northwest corner of the playing area, near the section M and N signs. For teams, further down in the room near the section F sign. Morning games will be sold near Section F as well.

*When is the Snack Bar open?* The Concourse Cafe is open from 10:30 - 2:30 each day, near the main door in room A2.

*Can we bring in food/drink?* Yes, but please use

the garbage cans and avoid messes.

*Is there a separate hand record for each event?*

No, all pair events that begin at the same time use the same set of hands, so each session has one record for open pairs, side games, Gold Rush, 199er, and any other pair games that are on.

*Where do the deals come from?* The ACBL generates them using a computer program that passes all tests for randomness, which players shuffling tend not to do. Shuffling tends to make for slightly flatter distributions than probability theory would expect.

But there is no element in the program that searches for and creates "difficult" hands, whatever that may mean. Fear of computer hands is an affliction we all should leave behind!

*Are the results posted online somewhere?* Yes they are, shortly after each session, and here is where to start:

**[www.bridgeresults.net/cal\\_list.cgi?trnid=173](http://www.bridgeresults.net/cal_list.cgi?trnid=173)**

Be sure to have a look at the Bridge Results site for information on how to get a free membership, so you can have your photo appear with your name, have results involving you generate an e-mail letting you know they have been posted, use the online partnership desk, and other features of the site.

**Pay by credit card!** District 19 is offering you the option of paying by credit card at this tournament. You can buy an express entry for \$13.50/session using your credit card. We will be selling express entries at the Partnership Desk 1/2 hour before game time at afternoon and evening sessions. The extra 50 cents covers the cost of making this service available, and is based on a percentage of the amount charged, so buying multiple entries does not save. Those paying the \$4 surcharge for non-Members may buy the entry with a credit card but must pay the surcharge in cash.

Glitches yesterday around the Tuesday Open Pairs caused the masterpoint lists in yesterday's issue to be off a bit. We fixed that and have added a list of the leading non-Life Masters today.

Attendance is down a bit from last year, but there is still plenty of time to improve! Call your friends and let them know it's time to pick up cards and win some regional masterpoints!

# Wednesday Open Pairs

## Southwest/Northwest Pair wins by half a board

Only a matchpoint behind the half-time leaders left a bit of work to do, and **Robert Moore** and **Rose Bolson** scored enough in the evening to win by more than half a board. Flight B winners **Ross Willingham Jr** and **Ralph Lind** also found themselves in second place at the break, but did enough to win by almost two full boards in a very tough game.

Top on a board: 17. Average for the event was 459. Winning scores were 547 (A), 485½ (B). To make the overalls you needed a total of 556½ (A), 453 (B). Average masterpoints for players in this event: 3702 (afternoon), 3732 (evening).

# Wed. Evening Board-A-Match Swiss Teams

## Winners: WRIGHT (A, B), CASTOLDI (C)

A final round 3-3 tie between A and B winners **WRIGHT** and second-place **HANSFORD** left **WRIGHT** a half-board ahead but awaiting results at other tables; third-place Knaap won their finale 5-1 to let **WRIGHT** breathe, and the **MOFFATT-GALER** match left those teams tied for fifth. C winners **CASTOLDI** rebounded from a 0-6 opener to take the under-750 strat.

More Board-A-Match on Friday evening, this one the pairs-style, where each team plays two or three boards against all or most other teams. In Board-A-Match scoring, a team wins, loses or ties a board, the difference is irrelevant (except that a difference of 10 is enough to win the board, unlike playing IMPs). Many pair-type strategies find their way into Board-A-Match games, like trying for the extra overtrick or the extra 10 for notrump. Some pairs play for ties, sticking to what looks to be a normal result and hoping for the occasional board win, others play to win every board, risking everything to get that big “1!” Give B-A-M a try!

# Wednesday Gold Rush Pairs

## Vancouver BC pair holds on for victory

They didn't think they had done enough to hold their sizable halftime lead...but **Tom Jen Kwan** and **John Maunsell** were wrong! It was pretty close though: four matchpoints separating them from two pairs tied for second.

Top on a board: 11. Average for the event was 264. Winning scores were 320 (P, Q). To make the overalls you needed a total of 289 (P), 290 (Q). Average masterpoints for players in this event: 296 (afternoon), 288 (evening).

## Tuesday Open Pairs (Revised)

### Houston, we have a new problem...

As I stated yesterday, the leaders did not change, but a BridgeMate recording error (wrong compass position for declarer) switched the other medalists. It was reported to me several times that the masterpoint lists in yesterday's Bulletin did not include this event, for which I apologize. Today's will have fixed that glitch.

Top on a board: 25. Average for the event was 650. Winning scores were (approximately) 777½ (A), 756.73 (B), 671½ (C). To make the overalls you needed a total of (approximately) 739½ (A), 671½ (B), 622 (C). Average masterpoints for players in this event: 2262 (afternoon), 2286 (evening).

# Kelsey's Challenges

## Test your team play!

Edinburgh bridge writer Hugh Kelsey hit upon a great method of presenting interesting hands in a series of books in the 70s and 80s. The reader sat South for a 64 board match and was presented with a difficult problem to solve as declarer or on defense on each hand. Bidding and carding agreements were natural so as not to get in the way of the problems.

Every solution included what happened at the other table in a top flight team match, and if you got most of the problems right you would end up with more IMPs than the imaginary opponents.

Here are some problems selected at random. If you got both right yesterday you already have a 26 IMP lead!

Board 3 (top of next column): West leads the king of diamonds to dummy's ace, East following with the three. A club to the queen wins, both defenders following low. How should you continue?

Board 4 (next column): You lead the three of hearts to the two, jack and ace. Declarer plays the eight of spades and you go up with the ace in order to lead

Board 3 4♥ by South	♠ J7432 ♥ K86 ♦ AT ♣ T65	South Deals E-W Vul
♠ W ♥ ♦ ♣	♠ K5 ♥ AQT52 ♦ 42 ♣ AQJ9	♠ E ♥ ♦ ♣
Bidding: 1♥- (2♦)-2♥-(P)-4♥		Opening Lead: K♦
Board 4 4♥ by East	♠ N ♥ ♦ ♣	East Deals E-W Vul
♠ K7643 ♥ K82 ♦ Q ♣ J962	♠ AQ ♥ 953 ♦ J96432 ♣ T4	♠ E ♥ ♦ ♣
E: 1♥ 4♥ W: 2♥ Pass		Opening Lead: 3♥

another heart. This time dummy's eight wins as North discards the eight of diamonds. Declarer cashes the king of spades, dropping the jack from his hand, and ruffs another spade with the queen of hearts. What do you discard?

## Kelsey's Challenges

(problems on page 11)

Board 1: Assuming the club finesse is on, only a bad trump break can hurt. If you play ace-king of trumps and find a 4-1 break you cannot return to finesse clubs again after finessing in hearts. Better is to play the king of hearts and continue with clubs. East may ruff the fourth club, but a trump remains to ruff the discarded diamond. Even a 5-0 is handled:

Board 1 4♥ by South	♠ J7432 ♥ K86 ♦ AT ♣ T65	South Deals E-W Vul
♠ AQ98 ♥ — ♦ KQJ865 ♣ 843	♠ K5 ♥ AQT52 ♦ 42 ♣ AQJ9	♠ T6 ♥ J9743 ♦ 973 ♣ K72
Bidding: 1♥- (2♥)-2♥-(P)-4♥		Opening Lead: K♦

At the other table, the contract and first two tricks were the same. South then cashed the ace of hearts, leading to down one. You gain 10 IMPs if you found the winning play.

Board 2: Three minor-suit tricks from partner will beat this. Declarer lacks enough entries to set up spades but is there a secondary plan?

Board 2 4♥ by East	♠ T952 ♥ J ♦ A875 ♣ KQ83	East Deals E-W Vul
♠ K7643 ♥ K82 ♦ Q ♣ J962	♠ AQ ♥ 953 ♦ J96432 ♣ T4	♠ J8 ♥ AQT764 ♦ KT ♣ A75
E: 1♥ 4♥ W: 2♥ Pass		Opening Lead: 3♥

If you discard a diamond, declarer continues with a diamond to the queen and ace. He wins the diamond return and plays a small club, inserting the nine and enplaying North. A club discard stops this plan, since you can ruff a club return after declarer ducks a club.

At the other table, the same contract but a different lead, the ten of clubs, covered in dummy and North's queen allowed to win. The jack of hearts return limited declarer to nine tricks. So you needed to discard a club to tie the board. It costs 12 IMPs if you threw a diamond. More tomorrow.

# Book Reviews

by David Taylor

**David Taylor** of TournTables sent us a series of book reviews. TournTables supplies the tournament with tables and boards and everything in between, and runs the bookstore area with all of the books you'll see reviewed, many more, and other items you may be interested in. Check them out before each session!

## Swings and Arrows

by Victor Mollo

Assuming that you've read Mollo's *Bridge in the Menagerie*, you'll know about his terrific writing and characters, not to mention bridge stories. In fact, Wikipedia tells me that he was recognized as "the most entertaining writer of the game" in a poll among American players in the 1980s. If you haven't read it, find yourself a copy.

After Mollo's death, **Mark Horton** brought together published and unpublished Managerie stories in a series of 4 books. The latest (and last) is *Swings and Arrows*, which is on par with the rest of these excellent collections. Swing by the bookstore to discover (for example) how the Hog managed to bid to 7♦, then go on to make it with the cards in the next column, and with the K♥ offside. (Hint: He had a little help from the defense.)

## Monopoly's Shortest Possible Game (from page 3):

The shortest possible two-player Monopoly game using the standard rules (see page 4 for ground rules and hints) goes like this:

Player 1 rolls double five and visits Jail, then double six takes him to Chance, where he draws "Advance to the nearest utility." He moves his token to Water Works and buys it for \$150. He then rolls a nine, landing on Park Place, buying it for \$350, leaving \$1000.

Player 2 rolls a non-doubles four and lands on Income Tax, which a recent rule change has made a \$200 payment (the 10% of net worth is no longer an option). He has \$1300 left.

Player 1 rolls a two and buys Boardwalk for \$400, then another two, passing Go and landing on Community Chest, where a bank error in his favor gets him another \$200. Before passing the dice he spends all \$1000 of his money and buys five houses, placing three on Boardwalk and two on Park Place.

Player 2 has only \$1300 and no property when he rolls a three and draws the fatal Chance card that says "Advance to Boardwalk," where the bill is \$1400. Game over!

Somewhere on the Internet, there is a video of two people playing this game ... in less than a minute.

## Bridge on a Shoestring

by Michael Schoenborn

**Michael Schoenborn** is a many-time Canadian champion and just this past year once again won the Canadian Senior Team Championships. He has written a very fun retrospective of his bridge career featuring excellent hands played by him and his many partners. The book is reminiscent of Mollo and Bird in the quality of the deals as well as humorous writing and interesting characters. It features many fun (and funny!) stories about early bidding experiments including short-suit pre-empts and a forcing pass system where a pass in 1st and 2nd seat showed "an unbalanced hand with 13 to 16 HCP." He also thoughtfully discusses some

good play and defense problems.

Overall, this is a very enjoyable read.

# Bridges Hints

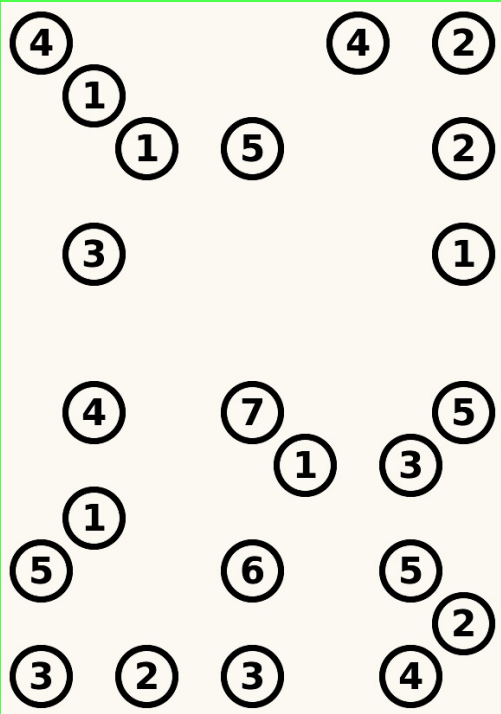

## Introductory Puzzle on Page 2

**Bridges** recap: Connect the islands (the circles) with bridges that run left-right or up-down and do not cross. You must connect all of the islands together and each island's number indicates the total number of bridges that lead into it. Two islands can be connected with one bridge, or two parallel bridges.

**Bridges** hints: Quite often you can fill in most of the bridges from an island just by reason. A '3' island in a corner (or one that can connect to two others only) must have one bridge to each (which you can fill in) and one bridge in parallel (which you'll need to figure out). Watch the '1' islands and connect them whenever there is only one island they can connect to. You might want to colour in the islands that cannot have any more bridges leading from them, but only if you're sure.

Now can you do the easy puzzle on page 2?

How about the more difficult one on this page?

Answers will appear in tomorrow's issue. The number/symbol puzzles were generated by software available (for all computers or smartphones) at this site — [www.chiark.greenend.org.uk/~sgtatham/puzzles/](http://www.chiark.greenend.org.uk/~sgtatham/puzzles/) — where you will find over three dozen types of such puzzles and controls to suit any size and difficulty level.

Events in **boldface** are the first session of a multi-session event.

Side Games can be entered at any time and carry no obligation to play in any other games in the series.

All events are stratified by the average masterpoint holding of a pair or team, but all members of the pair or team must be under the event limit (if there is one), even if the average "just fits."

## Bridge by the Freeway THURSDAY Edition

**Bridge by the Freeway** is the Daily Bulletin of the 2014 Puget Sound Regional, held in Lynnwood WA, just north of Seattle. The tournament site is the Lynnwood Convention Center, at 196th St SW and 36th Ave W, just west of Exit 181 (southbound) or 181B (northbound) from I-5, a few blocks east of Lynnwood's commercial center and a few blocks southwest of the Alderwood Mall.

**Bridge by the Freeway**  
editor: Bruce McIntyre  
(Burnaby BC)

e-mail: [ooga@shaw.ca](mailto:ooga@shaw.ca)

I welcome news, stories, photos, interesting deals, and other material for **Bridge by the Freeway**, and I'll print as much as I can—from experts, intermediates, and novices alike. I will be available for photos of overall winners in all strats before the afternoon session and again following the evening session. Any

win is important enough for a photo: no matter the bracket or strat. I should be available to take winners and new Life Master photos from about 11am to 4:30pm, and following the evening session at "preduplication station" or near the main entrance.

Each edition of **Bridge by the Freeway** is posted online at about breakfast time, at the District 19 web site: **d19.org**. Game results are posted about 30 minutes after each session at **bridgeresults.net** (look for "ACBL District 19 Regionals And Events"). A third site, **imageevent.com/mcbruce** will contain photos of winners, but these depend on available time and may not appear until the end of the week.

Results pages at the **Bridge Results** site include all kinds of special features, and a free membership allows you to add your photo, track your results with different partners, send messages to other members, and alert you when newly posted results involving you appear. All three sites will have links to the others so you should be able to go back and forth and find your way back, view previous tournament results, or load all three into separate browser tabs.

Delays? Bug me, **not** d19.org editor **Randy Corn**: not his fault. The only 100% way to get the results when they come out is to attend the tournament!
