## Numbers, Symbols & Words Your Daily Warmup Puzzles

words and strive for logical solutions (or at least inspired guesses). In each issue this week we will feature a pair of number/symbol puzzles, an easy one here on page two, and a harder one on the inside back cover; and, a word puzzle at the bottom of this page. In all of these puzzles, you will be able to solve them without guesswork, by logical deductions alone, which is what we're all trying to do at the table.

Word puzzles this week are from an app called **Unolingo**. It is a crossword without clues! There are exactly

In bridge we manipulate puzzles involving numbers, symbols and Today's puzzle is called **Bridges**. We start with islands that have —all bridges are straight lines that go left-right or up-down. No —the number of bridges terminating at any island is equal to —islands can be connnected with one bridge or with two —it must be possible to get from any island to any other via the —no bridges may cross one another or go over an island The easy version is at right. Hints, and a more difficult puzzle will appear on page 15.

26 blanks to fill in, and each letter of the alphabet fills one of the blanks. The puzzles are designed so that only common English words are used; there are no unfamiliar, centuries-old found only in crossword puzzles. You'll do best by looking for the E locations of the hard letters first: QU, X, J. Be sure to mark off the letters used in the checking area beside the grid to keep S track of your progress. It's not as difficult as it seems! I did Н most of these in 3-6 minutes. A list of words in the puzzle

## **Notes & Notables**

#### Going for five in a row?

The Evening Swiss Teams event tonight is sponsored by Sandra and Doug Fraser, who have won four two-session open consecutive pairs at this tournament.

Something tells me they may skip their own event. The last team to win five in a row had Jean Beliveau and Rocket Richard playing for it.

Sandra and Doug have a knack for racking up 60% sessions consistently that hasn't been seen since the days of Barry Crane (who could never have won five in a row as they have, because he spent Monday-Thursday filming TV shows). These are their session scores this week (the first is from Monday evening):

59.91%, 63.94%, 63.18%, 62.08%.

This is a Tiger Woods/Wayne Gretzky/Michael play hungry. Jordan level of dominance. They seldom lead at the dinner break, they just go out and put together another excellent session, and wait for the results to reunion has already taken place, but tournament confirm that they are the only pair that can sustain organizers were notified that a Fitbit had been left that level. Even the two worst sessions would make somewhere and possibly by a bridge player. If you the high overalls easily in any event this week.

Along with the Open Pairs and the Knockout Teams that began yesterday, there are many exciting events on the schedule:

- --Another Gold Rush 0-750 pairs
- --single session 199er games
- --a compact KO with 12-board matches
- -- the final session in each Side Game Series

Aidan Ballantyne is the presenter at Speaker's Corner today, from 6:20 - 6:40 or so. Return from 14, July 16, August 14, August 15, August 17 the break a little early and get some tips from another of B.C.'s best players!

Purchase entries by credit or debit card! coupons are sold at the front of the room, before evening and afternoon sessions. You still need to get birthday is, but I know now." in the main line for entries, so give yourself enough time to purchase your coupons.

Noon today is the deadline to pre-order a Sunday 58.00%, 66.03%, 62.02%, 58.50%, 60.68%, lunch from the concession stand at the back of the room. The break on Sunday will not be very long and you're best bet is to prearrange. Unless you prefer to

> I forgot to print this yesterday and possibly the have been searching for your Fitbit, we may have a lead for you on where to find it.

> Here is the latest problem stumping the Internet. I'll give you the answer in the Wrapup Edition (the Daily Bulletin that appears online early Monday morning) as click bait. (Yes, I'm evil...)

> Albert and Bernard have just become friends with Cheryl, and they want to know when her birthday is. Cheryl gives them a list of ten possible dates:

May 15, May 16, May 19, June 17, June 18, July

Cheryl then tells the guys separately the month (to Albert) and day (to Bernard) of her birthday.

Albert says "I don't know when Cheryl's birthday is, Entry but I know that Bernard does not know too."

Bernard says "At first I didn't know when Cheryl's

Albert now says "Then I also know when Cheryl's birthday is."

So when is Chervl's birthday?

# Friday Leader's Bridge Club Open Pairs

## Dynasty! Sandra & Doug Fraser win FOURTH straight all day open pairs.

Once again, **Doug** and **Sandra Fraser** were unbeatable, the only pair to string two sessions of 60%+ together, winning by a full board. The Flight B and C winners, **Nev Hircock** and **Heather Erskine**, scored enough points to make **Nev Hircock** a new Life Master. (He is still on the NLM leaderboard since it is based on status as the tournament begins.)

Top on a board: 23 (first session top of 17 was factored up). Average for the event was 621. Winning scores were 777.85 (A), 701.82 (B, C). To make the overalls you needed a total of 658.32 (A), 636.62 (B, C). Average masterpoints for players in this event: 2491 (afternoon), 2449 (evening).

Not all of us have an nice new iPad to read the Daily Bulletin in full colour every morning when it is uploaded ( tinyurl.com/d19vic2015 for the links ) so I thought I would use this space to reprint the tiny photos in a better size.

# **Bridges Hints**

### **Introductory Puzzle on Page 2**

Bridges recap: Connect the islands (the circles) with bridges that run left-right or up-down and do not cross. You must connect all of the islands together and each island's number indicates the total number of bridges that lead into it. Two islands can be connected with one bridge, or two parallel bridges.

**Bridges** hints: Quite often you can fill in most of the bridges from an island just by reason. A '3' island in a corner (or one that can connect to two others only) must have one bridge to each (which you can fill in) and one bridge in parallel (which you'll need to figure out). Watch the '1' islands and connect them whenever there is only one island they can connect to. You might want to colour in the islands that cannot have any more bridges leading from them, but only if you're sure.

Now can you do the easy puzzle on page 2?

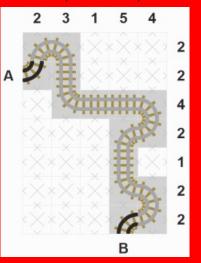

How about the more difficult one on this page?

Answers will appear in tomorrow's issue. The number/symbol puzzles were generated by software available (for all computers or smartphones) at this site — www.chiark.greenend.org.uk/~sgtatham/puzzles/ — where you will find over three dozen types of such puzzles and controls to suit any size and difficulty level.

overall winners at various times, depending on how the overnight production of these Bulletins goes. Any win is important enough for a photo: no matter the bracket or strat. I should be available to take photos in the playing area each evening as play ends and at other times at "preduplication station" at the far end

Each edition of **Bridge On the Island** is posted online by breakfast time. There may be as many as three places where results are posted, and there is a separate spot for photos taken at the tournament. The District 19 web site **d19.org** used to be the hub for all of this online activity, but the untimely passing of Randy Corn last December has slowed the District site down a bit. For this tournament, I am posting and updating a page of links at this short URL:
