## Your Daily Warmup Puzzles

Today's puzzle is called **Keen**. (It appears in several newspapers as KenKen.) Like Sudoku, your objective is to fill in the numbers 1 to the grid size, once in each column and row. Groups of cells marked off by thick lines are called 'cages.' The numbers within each cage must add, subtract, multiply, or divide to make the target number, listed at the top left of each cage with the math symbol. Unlike Sudoku, a cage may have the same number more than once, as long as the number does not appear twice in the same row or column.

Word puzzles this week are from an app called **Unolingo**. It is a crossword without clues! There are exactly 26 blanks to fill in, and each letter of the alphabet fills one of the blanks. The puzzles are designed so that

only common English words are used; there are no unfamiliar, arcane centuries-old words found only in crossword puzzles. You'll do best by looking for the locations of the hard letters first: QU, X, J. Be sure to mark off the letters used in the checking area beside the grid to keep track of your progress. It's not as difficult as it seems! I did most of these in 3-6 minutes.

A list of words in the puzzle (in alphabetical order) is on page 6. If you need a more limited hint, ask someone to examine the word list and tell you if the list contains, for example, a six-letter word starting with D and ending in E.

# Notes & Notables

## The Next One: April 17-23, 2017

And so we come to the final day of another Victoria Regional. The masterpoint race is almost certainly decided, and Doug Fraser will take a large early lead in the Kirkwood race (annual points in DINO Regionals) into Penticton, with five straight open pairs wins. Our tournament chair Jan Galenza has thanked everyone who helped out on the back cover (and sent the list without me even having to ask!) But something else is happening here that I've begun to notice, putting together these Bulletins this week. Are you familiar with the Black Ink Test?

The Black Ink Test is a method of comparing players (originally in baseball, but extended to other sports) devised by baseball writer Bill James, who counted the number of times a player led the league in a category (and had that year's total printed in **boldface** in the Baseball Encyclopedia). I do much the same thing in the Bulletin, making the names of overall winners in each strat **bold**. Here is the question: about what percent of these boldfaced names will be a player from the city in which the tournament is held? I've done this for ten years and my guess from experience is about 15-25% for a city of this size, although maybe 30-35% if you add the surrounding communities. At the very most.

Here is Victoria's percentage so far: 37.35%! That's not including Sooke or Esquimalt or Saanich or any of the others. That's just Victoria alone:

Monday-Tuesday: 20 Victoria, 44 other.

Wednesday: 19 Victoria, 25 other.

Thursday: 20 Victoria, 36 other.

Friday: 14 Victoria, 20 other.

Saturday: 23 Victoria, 36 other.

Total (so far): 96 Victoria, 161 other.

Of course, the winners are only a reflection of the total group, and based on this, we can certainly say with confidence that the support for this tournament from the local players has been excellent! You even let the visitors win some of the events...

Congratulations to three more new Life Masters: **Nev Hircock**, Victoria BC (photo, page 6) began Life Mastership by winning Saturday's Gold Rush by a huge margin. We understand that **Susan Moran** of

Nanaimo BC, whose photo we were unable to get but perhaps might on Sunday, is also a new Life Master. And there is also **Ann Mazuruk** of Victoria BC (photo at right), whose team won Bracket Three of the Friday-Saturday knockouts after a playoff!

Congratulations to all!

Some things to think about doing today before things begin to get packed up:

—Visit the table with tournament flyers and take some home to your home club for display. Wouldn't the next tournament be much more fun if you had a few friends with you?

—Take some extra Daily Bulletins, including what's left from previous days, home and put them on the display table at your local club. Many club players don't get to big tournaments because they don't see how much fun they can be. Maybe a copy of the Daily Bulletin will help change their mind.

—Visit David Taylor at TournTables and get yourself a bridge souvenir from this tournament. Not just books (but lots of great ones to peruse), but all kinds of interesting stuff.

—Make sure you take home at least one copy of the Daily Bulletin so that you can use the link on the back cover to find anything you are missing online when you get home, or even on your way home. (Here is that link again: [tinyurl.com/d19vic2015](http://tinyurl.com/d19vic2015) -- all lower case.) You will find there links to Daily Bulletins, results including pair game hand records, and photos taken for the Daily Bulletin. I must say as a new iPad owner that I was amazed how good the full-colour Bulletins look on the retina display.

—If you see players looking around for Bulletins today it is because they are still being printed at ARC Canada in Saanichton, and will likely arrive around 11am or so. An excellent job as always from this local company who we have used for Victoria's Bulletins since 2009. Thanks to all the good people there for making my job easier.

—Get ready for Penticton in just nine weeks. Canada's biggest Regional wants to see you there. (Penticton won't win 37% of the time, either, leaving masterpoints for the rest of us...)

# Saturday Dr. David Ward Open Pairs

## Five wins and counting for Doug Fraser

A copy-and-paste error left **Sandra Fraser** alone on top of the masterpoint list on Saturday's Bulletin cover. Today's will show **Doug Fraser** alone in the lead, after the Frasers and Hargreaveses combined on Saturday and **Doug Fraser**, playing with **Michael Hargreaves**, won yet another two-session Open Pairs. This time it was a big afternoon session of 67% that required only a "routine" 57% in the evening to secure a two board victory. Another Victoria pair, **Larry Margetish** and **Delma Murray** won the under-2000 strat with a strong evening finish after finding themselves third at the break.

Top on a board: 17. Average for the event was 459. Winning scores were 571 (A), 501 (B). To make the overalls you needed a total of 518½ (A), 463 (B). Average masterpoints for players in this event: 2885 (afternoon and evening).

# Saturday Gold Rush 0-750 Pairs

## New Life Master and partner run away with Gold Rush!

Event winners **Sue Foley** and **Nev Hircock** (a new Life Master, shown here with **Heather Erskine**, with whom he won Flights B and C in Friday's Open pairs) were tops in both sessions, and with 69% in the afternoon this was certainly a wire-to-wire win; the final margin was over three full boards. **Tom** and **Dallas Goodchild** were second and the best in the under-300 strat. We understand that **Susan Moran**, sixth overall with **Mary Dewar**, has also become a Life Master. Congratulations!

Top on a board: 8. Average for the event was 168. Winning scores were 220 (7), 185½ (3). To make the overalls you needed a total of 196 (7), 172½ (3). Average masterpoints for players in this event: 347 (afternoon and evening).

This one is for a long ride home or (hopefully not) a long ferry wait. It is, according to the program that produces them (see page 15 for details), among the hardest that can be generated. See page 2 and 15 for the instructions.

### Grand National Teams District Final (Part One done, Part Two next week)

The District 19 Final of two of the four flights of the Grand National Teams was held at the Vancouver Bridge Centre last weekend.

A three-team championship flight played quite a lot of bridge to get down to a two-team final on Sunday, and the winning team was: Rock Shi Yan, Richmond BC; Bryan Maksymetz, Vancouver BC; Dick Yarrington, Seattle WA; Ken Scholes, Bellevue WA. In the Flight B District Final (under 2500), seven teams played to reduce to four for Sunday. Except for the occasional Director call, the final was held mostly in Mandarin, and the winners were: Alex Chuang - David Huang - Tao Feng, Burnaby BC; Amy Gao, Richmond BC; Diana Jing, New Westminster BC; Xiangdong Meng, Surrey BC. Winning teams receive a subsidy from District Nineteen to attend this summer's NABC in Chicago, where the GNT National Finals will be held. Part Two is Flight A (under 6000) and Flight C (non-LM to 500), next weekend in Tacoma. Flight A begins on Saturday, Flight C will be a one day event on Saturday. Prior club qualification or a buy-in fee is required.

# Side Game Series Overalls

## Winners: Laing/Wastle; Dore; Sadler/Hall

The masterpoint awards here are either the overall award that you won for your side game score, or the points you won in the side game series, if greater, but with gold points preserved. If, for example, you won an overall award of 3.01 gold, but won a total of 3.51 red in the games of the series, you would be listed here as winning 3.51, but 3.01 of those would be gold.

# Bridges Hints

## Introductory Puzzle on Page 2

**Keen** recap: Fill the grid in Sudoku-style, no repeat numbers in rows or columns. The cages (areas boxed in by thick lines) must add, subtract, multiply or divide to the target number indicated.

**Keen** hints: Some cages immediately fill themselves: a two-cell cage marked 11+ in a size-6 grid must be 5 and 6 (or 6 and 5). No other cell in that row or column can have 5s or 6s. Once you can reduce the possibilities for a cell down to a handful of possible numbers, write the possibles in small figures and look for further clues to help you complete rows and columns. You'll be working out numbers mostly from the cage clues at the outset, and complete the puzzle using Sudoku-style strategies (what number is left to go here?)

|    |     |     |      |    |    |
|----|-----|-----|------|----|----|
| 5+ | 60× |     | 192× | 9+ |    |
|    |     |     |      | 2÷ |    |
| 3÷ |     | 90× |      |    | 2÷ |
| 3÷ |     |     | 1-   |    |    |
| 3- | 12× |     | 1-   |    | 2- |
|    |     |     | 8+   |    |    |

Now can you do the easy puzzle on page 2?

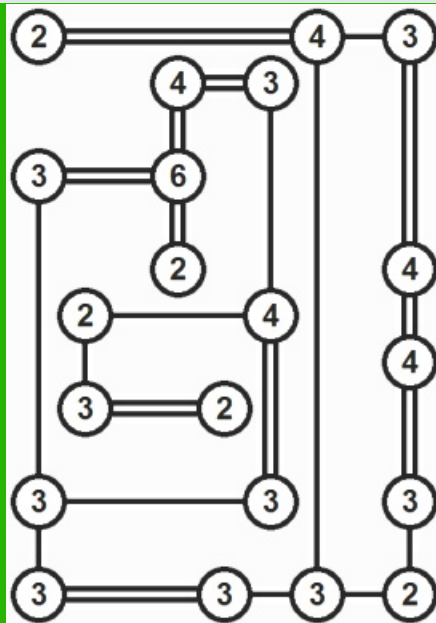

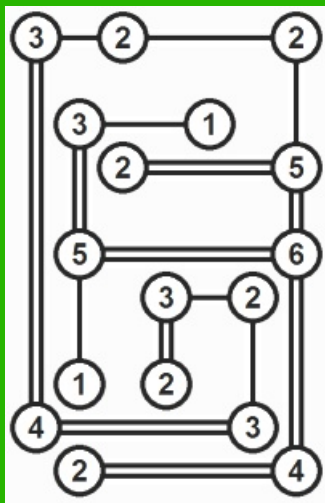

How about the more difficult one on this page? Or the expert-level one on page 8

Answers will appear in tomorrow's issue. The number/symbol puzzles were generated by software available (for all computers or smartphones) at this site — [www.chiark.greenend.org.uk/~sgtatham/puzzles/](http://www.chiark.greenend.org.uk/~sgtatham/puzzles/) — where you will find over three dozen types of such puzzles and controls to suit any size and difficulty level.

There is one more issue of the Daily Bulletin to come, the online-only Wrapup Issue. It will be posted online tonight as soon as it is completed and will contain photos and results from today's events, as well as a complete masterpoint report for the tournament: red and gold point breakdowns for all players, and leaders in all the lists I can think of!

So, I continue to welcome news, stories, photos, interesting deals, and other material for **Bridge On the Island**, and I'll print as much as I can—from experts, intermediates, and novices alike. I will be available today for photos of overall winners as play ends, and I remind you that one page contains links to all the spots online covering this tournament: results, photos, and Daily Bulletins:
