How to Find Service Part Numbers

Follow the step-by-step instructions below to determine the correct service part number. An example is given with each step.

Example: Need new circuit breaker for the generator set safeguard breaker kit.

1. Determine the accessory kit number for the needed service part. Refer to the generator set nameplate to identify the kit number installed on your generator set. See Figure 1 for an example of the nameplate.

Example: 272748 Safeguard Breaker

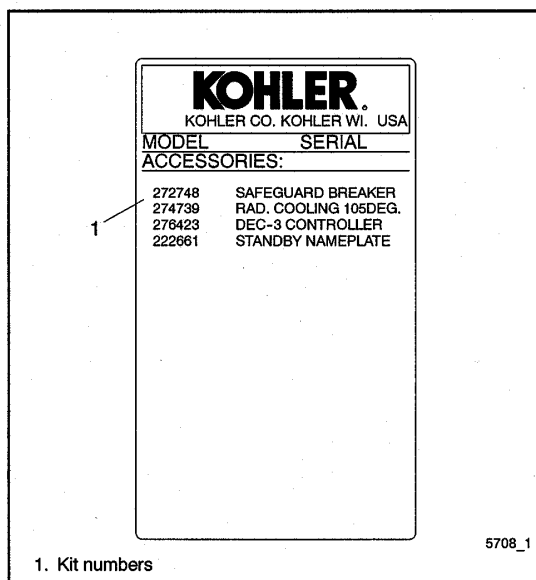

Figure 1 Generator Accessory Nameplate

2. Use the Index at the end of this catalog to find the location of the kit number in the Kit Parts List.

Example: Safeguard breaker kit 272748 is on page 41.

3. Locate the service part description in the list of parts following each kit. Read across to the part number.

Example: Circuit Breaker, 5 A, 240 V, 3 pole is part number X-796-6.
