Ram Ram

Namaste & Welcome,

PLEASE NOTE: (especially return viewers)

May – October 2006: – HOME PAGE REVISION: NEW LOOK & MANY ADDITIONAL ALBUMS & IMAGES!

Most photo ALBUMS (which contain the individual images) are now grouped into FOLDERS to facilitate easier & faster search of similar locations or types of images. So go into the FOLDER you want to find individual ALBUMS, which contain the individual IMAGES you want to view. Now 50 Albums containing 1,900 images for viewing & with 300,000 individual "photo darshans" to date.

First Major revision Summer – Fall 2005:

This site is now up 1 year & there have been over 100,000 individual photo darshans. There are now over 42 separate albums containing almost 1,300 different images (originally started with about 400). Many of the albums are entirely new (& are marked as such in their descriptions) but many of the existing albums have been updated too. New photos and albums will be continued to be added at any time. So please enjoy surfing the many new additions.

(Site started Fall 2004): This site is a humble beginning to share photos of Maharaji or Babaji (as He is affectionately called by His devotees) with everyone. Please note that Maharaji had many names during his lifetime, Lakshmi Narayan Sharma – His name given to Him by His father, Lakshman Das – His first Sadhu name, Tallaiya Baba – when he was doing tapasiya in a lake in Gujarat. But His most commonly known names are now "NEEB KARORI BABA" and "NEEM KAROLI BABA" (the later name is predominating among the Western Satsang).

This is a collaborative site by His devotees & ALL are welcome to participate & share. Our long term goal is to make every photo of Maharaji ever taken available for viewing. Also as many Hanumanji's, and other Murtis both associated with Him & others. Plus photos of His Indian & Western devotees from all over the world.

Please note that at this time all photos are low resolution (72 dpi #5 JPEG compression) & are not suitable for high quality large prints. Most of the photos are "as is original" scans hopefully they will be "post processed" so as to clean-up, crop & rebalance them back to the original colors in the future (some photos in the albums with RT have been "post processed" & are more refined).

Any & all, comments, suggestions & photos are most welcome. You can enter comments in any album or any photo (but the photo has to be enlarged first for specific photo comment).

Or email them to:
chokidar@babaneemkaroli.com

Please email your photo(s) to the above address, with any description & they will be uploaded to the appropriate album(s).

You can share this site (URL) with everyone & put it in your web site or home page.
